

## DOUBT VALIDITY OF BOND ISSUE

CIVIC CENTER PROPOSITION  
MUST BE SUBMITTED TO  
VOTERS ONCE MORE

## CALL TOO HURRIED

PROPER PROVISIONS ARE NOT  
CONTAINED, IS OPINION OF  
NEW YORK EXPERTS

Because of the fact that a New York City firm of bond experts has reported to the city trustees that the bond issue of \$100,000 for a civic center in Glendale, approved by the voters at the last general election, may not be legal, a special election will be held in January at which the question will again be put to a vote.

The board of trustees last night decided to call a special election in January, at the suggestion of City Manager Watson, to submit a bond issue for water mains and other municipal improvements. In view of the fact that there was some doubt concerning the validity of the bond issue for the civic center, the trustees decided to offer the civic center bonds for reapproval at the same time.

The civic center bonds, it was explained at the meeting of the trustees last night, have not been declared void. The firm of New York City bond experts, however, reports that, because of the fact that the call for the election did not specifically state just how and in what amounts the \$100,000 was to be expended, the legality of the election was in doubt.

## Put Through Too Quickly

It was explained last night that the call for the bond election was put through too quickly, with the result that all of the legal requirements were not, according to the view of the experts, complied with.

It was pointed out that a delegation visited the trustees and urged the \$100,000 civic center bond issue be submitted to the voters at the same time as the general election. The time to act was short and the trustees were compelled to issue the call without specifying just how the money was to be divided for the suggested swimming pool, gymnasium and museum.

The bond experts, in passing upon the issue, take the view that the call is in doubt as to its legality; they do not, however, go so far as to rule that the bonds are not valid.

During the discussion that resulted (Continued on Page 6)

## Miss Springer Called

Miss Marian Springer died last night, 9:30, at 237 South Orange, after an illness of several years, of a complication of diseases—stomach trouble and partial paralysis mainly. She had been unable to walk for more than two years past and could not even sit up a great part of this time, as she was in a plaster cast. Funeral services will be held tomorrow afternoon at 3 o'clock at the Jewel City Undertaking Co. parlors, Rev. C. A. Cole officiating.

Marian was 17 years old the 17th of last August and had been a faithful member of the Christian church and Sunday school for a number of years, attending regularly up to the time she became helpless. The release, which caused her death, came on Armistice Day. She was feeling so well that she was taken in a wheeled chair to view the parade, but grew dangerously ill before she reached home.

She is survived by her parents, J. H. and Claudia Springer, one brother, Ralph, the aged grandfather, J. H. Berry, and a number of other relatives.

## Mrs. Hale Is Dead

Mrs. Adelia Hale, mother of Mrs. A. T. Whitman of Tejuja, passed away at Tejuja yesterday afternoon at the age of 82 years. Funeral services will be held from the parlors of the L. G. Scovern company Tuesday, December 14, at 2 p. m., with interment at Forest Lawn memorial park.

## NOTICE TO THE PUBLIC

The Glendale Evening News has no solicitors out canvassing for subscriptions to the paper. If you are entreated to subscribe for some other publication do not confuse it with the Evening News, Glendale's only daily paper.

## Make Yourself Present for Christmas; Pay Up Long Time Subscription

Why do so many subscribers to The Evening News pay for a full year in advance?

The answer is easy. They pay a full year in advance in order to save money. Figure it out for yourself. By paying \$5, the amount of a year's subscription in advance, there is a saving of \$2.20 per year as against the plan of paying 60 cents per month for 12 months. The man who pays \$5.00 per year in advance saves \$1.00 per year over the man that pays \$1.00 for two months' subscription, and the subscriber who pays a year in advance saves 60 cents per year as against the one who pays \$1.40 for three months, four times a year.

The subscriber who pays \$5.00 in advance for a year's subscription pays even 50 cents a year less than the one who pays \$2.75 twice a year.

Simple, isn't it? Subscribers save money by paying a full year in advance and, too, The Evening News makes money, for long time payments make it easier to keep subscription records. Consequently, The Evening News has more money to put into other departments to issue an evening daily that is a credit to any community.

Are YOU saving money by paying a long time subscription to The Evening News? If not, make yourself a Christmas present by doing so.

## START ON PLANS FOR CITY FLOAT

COMMITTEE IS NAMED BY THE  
GREATER GLENDALE CLUB  
RESULT OF REQUEST

## IDEAS ARE WANTED

CHAMBER OF COMMERCE IS  
ALSO TO NAME COMMITTEE  
TO DESIGN DISPLAY

With L. T. Rowley presiding, and Roy L. Kent as secretary, the Greater Glendale Development association held a get-together banquet and business session at the White Inn last night, beginning at 6:30 o'clock.

As the result of a communication received from City Manager Watson, following action taken by the board of city trustees, Chairman Rowley appointed a committee of six, to meet with a like committee from the Chamber of Commerce for the purpose of arranging for a float to represent Glendale in the Tournament of Roses parade at Pasadena on New Year's day.

This committee is composed of J. G. Huntley, chairman; V. M. Hollister, C. D. Lusby, L. T. Rowley, W. B. Kelly, and Miss Muller, the latter being of the faculty of the Glendale union high school.

The committee, acting with the committee to be chosen by the Chamber of Commerce, will assume full responsibility for the designing and entrance of a float in the Tournament of Roses parade.

**Suggestions Are Desired**  
During the discussion, it was suggested by Mr. Lusby that the art department of the high school be invited to offer drawings and ideas for the float's design to the joint committee. Citizens generally will, it is expected, also be invited to submit ideas to the joint committee.

The committee named by the Greater Glendale Development association will confer with the Chamber of Commerce committee as soon as that is chosen and start planning the float. Quick action is necessary and, it is presumed, the Chamber of Commerce representatives will be announced at once, so that the two committees (Continued on Page Five)

A. R. Spindler and family, who sold their home at 634 Howard last week, will move to Fresno in a few days, but expect to return to Glendale eventually.

## BOND ELECTION ON WATER MAINS

CITY TRUSTEES DECIDE TO  
SUBMIT PROPOSITION TO  
EXPEND \$100,000

## ALSO SUM FOR YARDS

ADDITIONAL \$26,000 TO BE  
ASKED FOR TO PURCHASE  
PROPERTY FOR CITY

Following out a recommendation contained in a report submitted by City Manager Watson, the board of trustees last night took the first steps toward calling an election sometime in January at which the voters will be asked to decide whether \$100,000 in bonds shall be issued for the purpose of purchasing and laying water distribution mains and \$26,000 for the purchasing of suitable grounds and erecting a garage and storeroom.

The report of the city manager, as submitted to the trustees last night, follows:

"We would respectfully call the attention of your honorable body to some matters set forth in our report of September 10, 1920, namely, the need of funds for the purpose of providing distribution mains for the water system and for purchasing suitable grounds and providing for housing and caring for city automobiles and for storerooms and material yards.

## Continues Rapid Growth

"Since the submission of this report the city has continued its rapid growth. During the last six months there have been 589 additional water services installed. A large number of these services are being installed in sections of the city that have practically no water mains, as set forth in the report referred to. The department cannot be expected to render satisfactory service under these conditions. If measures are not (Continued on Page 4)

## Change in Names

It was announced recently in Los Angeles papers that the city planning commission had recommended the changing of the name of Lake Shore avenue from Second street north, Alessandro street, Ivanhoe avenue and North Brand boulevard, Los Angeles (between the river and the S. P. tracks), to Glendale avenue, as proposed months ago by the city engineering department. That makes Glendale avenue, Los Angeles, extend from Second street clear to the south city limits of Glendale, eliminating from the roster of Los Angeles streets the names of Lake Shore avenue and Ivanhoe avenue. Alessandro will still apply to that portion of the street north of its junction with Ivanhoe avenue.

It has been proposed, and more than 50 business men of Glendale have signed a petition favoring it, to change the name of Brand boulevard between San Fernando road and the south city limits to Glendale avenue, also, making that name apply between Second street, Los Angeles, and San Fernando road, Glendale. Should this be done, eventually Forest street would be widened and named Glendale avenue also, as it would form a connecting link between the two parts of that street. Then with the proposed graceful curve leading from what would, after all the above changes were made, be the south end of Brand, into San Fernando road, the south portion of the city would be well provided with highway connections in all directions.

The proposed Glendale avenue from San Fernando road direct to Second street, Los Angeles, would provide an air line highway from Glendale to the heart of the business district of Los Angeles after the Second street tunnel is bored and put into commission.

## WOULD STOP HIGH HEELS

BOSTON—A ban on high heels such as never carried a Puritan or Pilgrim ancestor to church is to be sought from the legislature by the Massachusetts Osteopathic society. Announcement that the society would introduce a bill to stop the high heel at its source—the manufacturer—was made at its nineteenth annual convention. The fad of sucking lollypops also was assailed.

## RESEARCH HOSPITAL BOARD

The Research Hospital board will hold its regular monthly meeting in the office of C. W. Kent & Son this evening.

## LOCAL BUILDING RECORD IS GOOD

OUTLOOK IS VERY FINE FOR  
GLENDALE AS SHOWN BY  
OFFICIAL RECORDS

## DECEMBER PERMITS

TOTAL OF MORE THAN FIFTY  
THOUSAND DOLLARS IS SO  
FAR REPRESENTED

Reports are that building operations all over the southland are slackening up greatly and that this condition is even more marked in the northern part of the state. There seems to be no let down in Glendale, however, though few costly new homes have been started this month thus far.

With the permits thus far totaling more than \$50,000 and others soon to be taken out greatly in excess of this amount, according to plans already completed, the outlook is very promising. New residences are being finished and occupied every day and removals are many. Not only is this true in respect to residences, but there is an insistent demand for new business rooms. One builder of five store rooms reports that many applications have come in for these, though all were rented days ago, and, in fact, every new business house is rented long before it is completed.

## Recent Permits Issued

The permits taken out since our last report are as follows:

C. E. and C. A. Dodge, addition and alterations, 126 W. Cypress Ave. ....	250
Robert H. Lord, garage in rear of new home, 1270 Boynton Hall & Bishop, warehouse in rear of 116 N. Brand Blvd. for use of Glendale Groceries .....	1200

## Present at Smoker

Representing the Glendale realty board at the smoker held at the Los Angeles Athletic club last night for the delegates to the California Real Estate association convention were E. P. Hayward, C. B. Guthrie, H. L. Miller, H. E. Allen, W. P. McMullin and H. E. McCartney.

The convention now being held in Los Angeles is unusually interesting and instructive and some remarkable addresses are being made. C. B. Guthrie and H. L. Miller are attending all of the sessions from Glendale.

## PREDICTS GREAT OIL FIELD HERE

DRILLING OPERATIONS UNDER  
WAY AT LEASES SECURED  
AT GLENDALE LINE

## WORK NOW STARTED

BEST OF MACHINERY BEING  
USED; MOTOR DRIVEN BY  
LOCAL POWER LINES

Predicting that one of the best oil fields in the country is just at the edge of the city limits of Glendale, W. I. Bower, a well-known expert, Charles Henry, a Glendale city trustee, and John Bretz, Jr., of Van Nuys, are today superintending the erection of an oil rig on their lease on the Ross and Thom ranch, east of Brand boulevard and west of Verdugo road.

Confident that oil will be found in great quantities, the trio has secured leases on nearly 700 acres in the vicinity of where the first well is to be drilled.

Further, the most expensive and most modern equipment obtainable has been purchased and is now being delivered to the scene of activities. For weeks preliminary preparations have been under way. A road has been graded to the site of the well, the ground has been leveled and, in brief, everything possible has been done to start operations on a large scale.

## Experts in Charge of Work

William M. Foster, a driller of twenty-five years' experience, is now on the ground and will be in charge of the drilling. He has worked in the various coast oil fields and has just recently come from Nevada, where he has been superintending drilling.

The construction of the rig is under the direction of W. J. Miller, who has built and directed a large number of rigs.

Mr. Bower, an oil locator well known in the various fields, located the site of the well and he predicts oil will be struck within sixty days—ninety days at the outside.

"I am certain the well we are about to bore will compare favorably with the Chapman well," declared Mr. Bower today, in discussing the operations of himself and associates at the edge of the northern city limits of Glendale.

"We propose to go down 2,000 feet within sixty days and I'm willing to stake my reputation we will strike oil. I am known as the locator of the Newport field and what I said of (Continued on Page Five)

## High School Teacher

Miss Bernice Woods, formerly a teacher in Glendale union high school, is now a teacher in the high school at Hughson, in Stanislaus county.

Besides her regular high school work the young lady has interested herself in Americanization among the foreigners there and her work bids fair to rival that of Myra Kelly of New York east side fame. A class of thirty or more aliens meet with Miss Kelly in the high school every Friday evening for a lesson in American citizenship and the English language. After their English lesson, a social session follows at which refreshments are served, and here Portuguese, Italians, Swedes, Mexicans and people of other nationalities, adults and children, mingle and learn to live together according to the custom of the country they will adopt as their own when their lessons are learned.

L. L. Dennett, who spoke to the class there recently on "American Citizenship," commends Miss Woods' work among these aliens very highly.

## Offer Good Things

If it be true that the way to a man's heart is by the route of his stomach, Glendale's men's hearts (and maybe their purses, but what of that?) must surely be "touched" to a fare-you-well this Christmas season; for many and varied are the food sales Glendale has had and is having.

Not the least in importance is the sale of good things offered tomorrow by the ladies' aid of Verdugo M. E. church at 108 North Brand boulevard. A fancy work sale will be held in connection with the food sale and the ladies promise a good time to all who visit them.

LOS ANGELES, Dec. 10.—The official weather forecast issued today is: Unsettled tonight and Saturday, with possibly rain tonight.

## ONE HUNDRED ARMED AND MASKED MEN RAID SONOMA COUNTY JAIL AND LYNCH MEN HELD FOR MURDER

One Goes to His Death Without a Murmur, Another Laughs at Lynchers, While Third Cries Like Child; Officers Covered With Guns

(Special Service to Glendale Evening News)

SANTA ROSA, Cal., Dec. 10.—About one hundred armed and masked men raided the Sonoma county jail early today, disarmed Sheriff Boyes and his deputies, dragged Terrance Fitts, George Boyd and Charles Valento, who were under indictment for the murder of Sheriff Petray of Sonoma county and Detectives Jackson and Dorman of San Francisco, from their cells and lynched them on the same limb of an oak tree in the Odd Fellows' cemetery.

After the bodies had swung in a gentle breeze which was blowing a light mist around them, for an hour, Sheriff Boyes and the coroner cut them down.

Boyd, the gangster who fired the shot that killed the officers, went to his death with hardly a murmur. He was dying gradually from a bullet wound inflicted by Detective Jackson before the latter died.

Valento walked to his place under the death limb with a laugh for his executioners on his lips. He laughed in their faces when they took him from the jail.

Fitts, known as "the bully," screamed and cried like a child and pleaded for his life. At the scene of the lynching, he became so violent and screamed so loudly that he was struck on the head with the butt of a revolver and quieted. A gag was then pushed into his mouth.

The lynchers were organized perfectly. Masked guards with revolvers and rifles were stationed at all streets surrounding the jail. Pedestrians and automobilists approaching the jail were stopped and turned in another direction.

The band rushed into the jail and was met by the sheriff and three assistants. The jail keys were taken from Boyes after he and his fellow officers were "covered" with half a dozen revolvers and guns.

The slain sheriff would have been fifty-five years old today. The day has been sloganized "hangman's Friday" and the phrase is already on the lips of thousands of people.

## HOPES FOR IRISH PEACE ARE DROPPED

(Special Service to Glendale Evening News)

LONDON, Dec. 10.—Hopes for Irish peace were dashed by Lloyd George's announcement in the house of commons today of the government's refusal to recognize or negotiate with the Dail Eireann "Irish parliament" on which the Sinn Feiners had insisted. Martial law in the most disturbed sections of Ireland will be proclaimed, Lloyd George declared.

## KILLED RESULT OF EXPLOSION IN SENATE

(Special Service to Glendale Evening News)

BUCHAREST, Dec. 10.—An infernal machine was exploded in the Rumanian senate yesterday, killing one and wounding several others. The planters of the bomb were not discovered.

## QUAKE DESTROYED OVER SCORE OF TOWNS

(Special Service to Glendale Evening News)

PARIS, Dec. 10.—Twenty-five villages in the Albani district of Jugo-Slavia have been destroyed by earthquakes, according to American Red Cross reports from Valona.

## PRES. WILSON ACCEPTS NOBEL PEACE PRIZE

(Special Service to Glendale Evening News)

WASHINGTON, Dec. 10.—President Wilson has accepted the Nobel peace prize for 1919, it was announced at the state department today.

## MANY MATTERS OF INTEREST ARE TRANSACTIONED BY CITY TRUSTEES

Besides matters related in other columns of The Evening News tonight, the board of city trustees last night transacted the following:

Board assembled at 8:25 p. m., all members present. Minutes of the regular meeting of December 2, 1920, were read and approved.

Mr. Kellogg of the Pasadena Post wished to be informed as to whether the trustees had decided to take advertising space in the book to be issued by his concern in connection with the tournament of roses at Pasadena. He was informed that the trustees had considered the matter, but that there was no money in the advertising fund to enable them to accept his proposition.

Mr. Treadwell wished to be informed as to the action of the zoning committee in regard to the motion picture zone. He was informed by

the chairman that nothing had been done in regard to the matter since the last meeting of the board.

The hearing of protests against the improvement of Arden avenue was called for at this time. The clerk reported that no protests had been filed.

In connection with the improvement of Dayton court a communication was read signed by A. H. Lankford and ten other property owners interested, requesting that specifications calling for a five-foot sidewalk be changed to four-foot and requesting that owing to the width of the street, the curbs be placed up to the sidewalk. On motion of Trustee Stephenson an order was made requesting the city engineer to report upon the frontage represented and that hearing be continued until the (Continued on Page 3)

## ANNOUNCEMENTS

### NOTICE TO THE PUBLIC

Notwithstanding reports to the contrary, Harry W. Chase and S. A. Chase are still doing business in Glendale, and temporarily can be reached at 1429 East Wilson. Phone Glendale 1445-W.

### CARD OF THANKS

We wish to thank the friends for their sympathy so kindly expressed and for the beautiful floral offerings sent at the time of the death of our dear son, Charles.  
Mr. and Mrs. Charles Wilson and Relatives.

### NOTICE

Is hereby given that Frederick Hayes and C. E. Battey, former owners of the Deity & Pet Stock Exchange, Glendale, California, have disposed of their entire interest in said firm, and will not be responsible for any indebtedness on or after this date. All claims against said firm must be presented within three days from date.

(Signed)

FREDERICK HAYES,

C. E. BATTEY.

Dated, Glendale, California, Dec. 8, 1920.

### TUESDAY AFTERNOON CLUB

A regular meeting of the Tuesday Afternoon Club will be held Tuesday, December 14, at 3:30 p. m. at the Masonic Temple. Program: Glendale Madrigal Club, Mrs. C. A. Parker, director; vocalist, Mrs. John Draper. The dolls left from recent bazaar will be on sale.

MRS. C. E. HUTCHINSON, Pres.

### NOTICE OF PUBLIC WORK

Public notice is hereby given that the Board of Trustees of the City of Glendale, on the 26th day of November, 1920, did at its meeting on said day, adopt a resolution of intention No. 1144 to order the following improvement to be made, to-wit:

Section 1. That all of that certain ten (10) foot alley in Tract No. 3196, as per map recorded in Book 33, Page 38 of Maps, Records of Los Angeles County, California, be closed up, vacated and abandoned for street and alley purposes.

Section 2. That the land necessary and convenient to be taken for the improvement described in Section 1 hereof is situated in the City of Glendale, County of Los Angeles, State of California, and is more particularly described as follows, to-wit: Beginning at the most southerly corner of Lot 4, Tract No. 3196, as per map recorded in Book 33, Page 38 of Maps, Records of Los Angeles County, California; thence northwesterly along the southwesterly lines of Lots 4, 3, 2, and 1 of said Tract 3196 to the most westerly corner of said Lot 1; thence in a direct line across said alley to the most northerly corner of Lot 6 of said Tract 3196; thence along the north-easterly lines of Lots 6 and 5 of said Tract 3196, to the most easterly corner of said alley; thence in a direct line across aforementioned alley to Point of beginning.

Section 3. The district to be assessed for the expenses of said improvement is hereby made to said Resolution of Intention No. 1144 for further particulars of said work.

J. W. WATSON,

City Manager and ex-Officio Street Superintendent of the City of Glendale.

## PERSONALS

The Music section of the Tuesday Afternoon club meets today at the home of Mrs. A. H. Montgomery, 415 South Central avenue.

W. L. Beals and wife have recently returned from Iowa, Mich., where they spent the summer and are again in their home at 1012 Mariposa. Their daughter, Mrs. E. R. Pitt, of Lansing, Mich., came with them to spend the winter.

Friends of Wm. H. Viohl, who left Glendale last May for Chicago and St. Louis, will be pleased to learn that he will return to Glendale before Christmas. The Eastern climate did not make a very favorable impression on him.

Mrs. John Roman of 515 North Central avenue was the honoree at a surprise given to her by a number of her Los Angeles friends Wednesday, which was Mrs. Roman's name's day. She was showered with many beautiful bouquets.

Mrs. G. D. Roach of 459 Milford street entertained the Bridge Luncheon club of Los Angeles at her home yesterday afternoon. Mrs. Lapham of West Broadway and Mrs. Roach are the only Glendale members of this club.

A number of Glendale men attended a Shriners' initiation of candidates at Venice last evening. Among them were Messrs. A. L. Baird, F. S. Hill, Julius Kranz, Sam Mularkey, D. H. Smith, A. G. Spohr, H. E. Betts, J. A. Logan, Dan Campbell, Arthur Campbell, John Hobbs and W. S. Rattray.

Mrs. C. E. Hutchinson, president of the Tuesday Afternoon club, entertained the members of the executive board of that organization at luncheon today at her home, 246 North Orange street. The ladies invited were Mrs. E. W. Kinney, Mrs. C. W. Norton, Mrs. John Robert White, Mrs. Mabel L. Rudy, Mrs. Walter Stamp, Mrs. Hunt, Mrs. Mabel Franklin Ocker and Mrs. C. H. Temple.

Miss Clara Ringert entertained the Wednesday club at the home of Mrs. Chas. Glover, 416 Myrtle street. The afternoon was spent in making children's comforts for the needy at Christmas time. The club voted that \$15 be turned over to the Elks' Christmas fund and \$5 be donated towards securing kitchen utensils for the new children's hospital at Monte Vista. Those present were: Mrs. Frank Hester, Mrs. Chas. H. Sanders, Mrs. Freshman of Los Angeles, Mrs. G. D. Roach, Mrs. Wm. Nash, Mrs. J. S. Hearnshaw, Mrs. H. Clotworthy and Miss Clara Ringert.

Members of the Philathea class of the First Methodist church met at the home of Miss Lavera Kitterman, 311 North Kenwood street, last night and made candy for the candy booth at the church bazaar.

A. J. Lucas has faith in Glendale's continued prosperity and is demonstrating it by his plans to build an up-to-date real estate office on the lot where his present office stands. It will be of brick with an ornamental front. It will be commenced in a few days.

Among the Glendale people who attended the Nebraska "get together" meeting held in the Friday Morning club rooms in Los Angeles Tuesday night were Mr. and Mrs. R. F. Kitterman and two daughters, Kathryn and Lavera, of 311 North Kenwood street, and Mr. and Mrs. C. C. Cooper of 302 North Central avenue.

## CITY TRUSTEES

## MANY MATTERS OF LOCAL INTEREST COME UP FOR ACTION BY BOARD

(Continued from Page One)

next regular meeting of the board.

## No Protests Are Filed

The clerk reported that thirty days had elapsed since the filing of the re-assessments for the opening and widening of Orange street from Lexington drive to Milford street and that this being the next regular meeting after said filing and no protests having been received, the matter was therefore presented to the board. On motion of Trustee Stephenson, the re-assessment for opening and widening of Orange street from Lexington drive to Milford street in accordance with ordinances Nos. 347 and 354, was approved by the following roll call: Ayes, Bartlett, Henry, Robinson, Shaw, Stephenson. Noes, None.

Two applications were received from Ralph Holman for permission to do street work by private contract, consisting of cement sidewalk five feet in width on the west side of Columbus avenue fronting on Lot 1, Block "L," Glendale Valley View tract; a cement curb on the south side of Broadway fronting Lots 1 and 2 of Block "L," of Glendale Valley View tract; also sidewalk in front of same property. On motion of Trustee Stephenson requests were granted.

An application from Smith-McMullen to sell milk, being approved by the milk inspector, was on motion granted.

## Communication Is Read

A communication was read from Mrs. A. M. Fenton in reference to her claim in regard to water pipe removed by the city from Lot 14, Max Muir tract; stating that she had investigated the matter further and that she had been unable to discover that any reservation had been made in the deed given by the city, conveying the property, neither was there any oral agreement in regard to removal of the pipe.

The city manager gave an explanation of the details of the transaction that it was clearly understood when the city transferred the property to the Bank of Italy, that the pipe and other improvements on the same were to be removed. On motion of Trustee Stephenson, it was resolved that any and all claims made by Mrs. Fenton in connection with this transaction be denied, by the following roll call: Ayes, Bartlett, Henry, Robinson, Shaw, Stephenson. Noes, none.

Reports were presented by the health officer, superintendent of buildings, street department and city treasurer. Report of the treasurer was referred to the finance committee and other reports ordered to be filed. Demands were presented and referred to the finance committee. The finance committee reported back the demands approved and on motion of Trustee Stephenson, warrants were ordered to be issued on same, by the following roll call: Ayes, Bartlett, Henry, Robinson, Shaw, Stephenson. Noes, none.

The city manager made request that the clerk be authorized to advertise for sealed bids to be received by the board of trustees until 7:30 p. m. Thursday, December 30, 1920, to deliver one carload of eight-inch top forty-foot poles, f. o. b. Glendale. On motion of Trustee Stephenson recommendation of the city manager was approved and was ordered for advertisement to be made in accordance with same.

The city manager presented a report with inventory of pole lines, transformers and other electrical equipment owned by the city of Burbank in the Grand View district, recommending that same be purchased from the city of Burbank at price stated further in the inventory namely: \$1290.96. On motion of Trustee Bartlett, recommendation of the city manager was approved and the purchase ordered to be made by the following roll call: Ayes, Bartlett, Henry, Robinson, Shaw, Stephenson.

The city manager reported having accepted subject to the approval of the board, from John Bretts, Jr., the sum of \$500 as part payment for the construction of an electric transmission line, installation of transformers and other apparatus for serving electric power as set forth in his report submitted December 2, 1920. Mr. Bretts desires to pay one-half of this balance in sixty days and to make final payment in ninety days. On motion of Trustee Robinson the action of the city manager was approved and it was decided that transaction with Mr. Bretts be completed in accordance with the city manager's two reports upon the subject.

## Reports on Sewage Question

The city manager made a report in regard to the sewage question in the business district and requested authority for calling a meeting of the property holders interested for Wednesday evening, December 15, 1920, in the council rooms in order that they may be made acquainted with the plans for the work and have an opportunity to petition the board to take necessary proceedings for the installation of sewage disposal system in that portion of the business district fronting on Brand boulevard from Colorado street north to Wilson avenue, and such other portions of the business district in which the property owners may care to take such action.

The city manager presented communication stating that H. J. Edwards in the Grand View district has called attention to the fact that he had paid \$411.72 for water mains and the installation of electric service to his residence and that under

date of January 8, 1918, the manager of the public service department had promised him that this sum would be returned to him in the event of the annexation of that district to the city of Glendale. The city manager recommended that payment be made to Mr. Edwards in accordance with this agreement on the part of the public service department. On motion of Trustee Robinson was approved by the following roll call: Ayes, Bartlett, Robinson, Shaw, Stephenson. Noes, Henry.

## Care of Smallpox Cases

The city manager submitted a report calling attention of the board of the fact that the city health officer and health department are greatly embarrassed at times by reason of the fact that they have no place or means of taking care of cases of smallpox and other contagious diseases. He stated that it would require an outlay of approximately \$2,500 to build and equip a place suited for this purpose. He recommended, however, that an effort be made to secure arrangements with the county authorities by which such cases occurring in the city of Glendale might be taken care of by the county health department. On motion the city manager was instructed to take the matter up with the county authorities.

The engineer of the public service department presented a report to the effect that the smaller reservoir previously decided upon to be constructed in the Grand View district will cost approximately \$6,000. On motion of Trustee Stephenson was ordered that reservoir be constructed with the capacity of 300,000 gallons as provided for by the specifications of the engineer of the public service department who was instructed to prepare plans for the same.

**Franchise Is Granted**  
An ordinance was presented by Trustee Henry, giving a franchise to (Continued on Page 6)

Colorado, Glendale 1275-W.

#### FIVE CARLOADS

LOCAL FORD AGENCY REPORTS  
BIG DEMAND AND SIX MORE  
CARLOADS EN ROUTE

Indicative of the great volume of  
business that the Ford agency, 400  
East Broadway, is doing, is the fact  
that during the past six working  
days they have unloaded five car-  
loads of Fords, making approxima-  
tely thirty-five cars.

They have six carloads more on  
the way, so that they are in position,  
for a limited time, to give immediate  
delivery on Ford sedans, coupes and  
touring cars.

This is news that will interest  
those planning the purchase of a  
Ford car for a Christmas gift—but it  
might be well to add that orders  
should be placed promptly in order  
to avoid disappointment. The  
"shop early" admonition seems at  
last to have permeated the public  
consciousness, for all merchants say  
that the Christmas shopping began  
early this year. For this reason  
these contemplating the buying of a  
Ford for Christmas would better "do  
it now."

#### Hurd Sole Proprietor

T. E. Hurd, of the meat shop in  
the Acme Market at 130 North  
Brand boulevard, has bought the in-  
terest of his two partners, Charles  
Berry and Clifton Ehrenhart. Mr.  
Hurd is now sole proprietor of the  
meat market.

NOTICE CALLING FOR BIDS  
Sealed bids will be received by the  
Board of Trustees of the City of  
Glendale until 7:30 p. m. on Thurs-  
day, December 30, 1920, to deliver  
the following poles P. O. B. cars,  
Glendale, Cal.  
1 Car Load 8" Top 40 Ft. Poles.  
Poles to conform to the Western  
Red Cedar Association's specifica-  
tions and to be built treated as per  
Treatment B of the above association.  
The Board reserves the right to  
reject any or all bids.  
December 9, 1920.  
J. C. SHERER,  
City Clerk.

#### ORDINANCE NO. 414

AN ORDINANCE OF THE CITY OF  
GLENDALE AMENDING SEC-  
TION 2 OF ORDINANCE NO. 382  
OF SAID CITY.

THE BOARD OF TRUSTEES OF  
THE CITY OF GLENDALE DO OR-  
DAIN AS FOLLOWS:

Section 1. That Section 2 of Or-  
dinance No. 382 entitled "AN OR-  
DINANCE OF THE CITY OF GLEN-  
DALE FIXING THE SALARIES OF  
THE OFFICIALS OF SAID CITY,  
AUTHORIZING THE EMPLOY-  
MENT OF CERTAIN EMPLOYEES  
OF SAID CITY, AND FIXING THE  
COMPENSATION OR RATES OF  
PAY THEREOF, AND REPEALING  
ORDINANCE NO. 356 AND ALL OR-  
DINANCES AMENDATORY THERE-  
TO" be amended to read as follows:

Section 2. That the compensation  
of the officers of the City of Glendale  
in the Public Welfare Department is  
hereby fixed as follows, or less:  
Health Officer...\$50 per month.  
Sanitary Inspector, \$140 per  
month.

Section 2. The City Clerk shall  
certify to the passage of this ordi-  
nance and cause the same to be pub-  
lished once in the Glendale Sentinel-  
Progress, a weekly newspaper of gen-  
eral circulation, published and cir-  
culated in said City of Glendale, and  
thirty days thereafter the same shall  
be in full force and effect.

Adopted this 9th day of December,  
1920.

HARTLEY SHAW,  
President of the Board of  
Trustees of the City of  
Glendale.

Attest:  
J. C. SHERER,  
City Clerk of the  
City of Glendale,  
STATE OF CALIFORNIA,  
COUNTY OF LOS ANGELES (SS.  
CITY OF GLENDALE)

I, J. C. Sherer, City Clerk of the  
City of Glendale, do hereby certify  
that the foregoing ordinance was  
duly adopted by the Board of Trust-  
ees of the City of Glendale, State of  
California, and signed by the Presi-  
dent of said Board at a regular meet-  
ing thereof, held the 9th day of  
December, 1920, by the following  
vote:

Ayes: Bartlett, Henry, Robinson,  
Shaw, Stephenson.  
Noes: None.  
Absent: None.

J. C. SHERER,  
City Clerk of the  
City of Glendale.

THE OWNERS OF THE

## Basket Grocery

108 EAST BROADWAY

Appreciating the fact that the public of Glendale and surround-  
ing towns are patronizing home industries, we have enlarged  
our store and have installed a new Meat and Fresh Fish  
Market with a view to giving better and more prompt service.

## Investments

If you are looking for investments we may be  
in a position to find just what you want. Our  
business brings us into contact with all kinds  
of investments that are safe and that will yield  
good returns. It will place you under no obli-  
gations to talk the matter over with us.

Or perhaps you have some good investment  
to offer. Just as we learn of investments we  
are in close touch with investors and may be  
able to put you in touch with just the man you  
want.

This is only one of the many forms of service  
that we render our patrons.

### The First National Bank

THE BANK THAT SAYS "THANK YOU"

## CHRISTMAS Books and Games For Children

Books and games are splendid gifts for chil-  
dren, so much better than toys that are easily  
destroyed and of which they soon tire.  
You will find here books for children of all  
ages and a splendid assortment of games.

### Glendale Book Store

113 S. Brand Boulevard Glendale 219

The Indiana man who was killed by a runaway horse the other  
day got real newspaper publicity; getting killed by an automobile  
does not mean much any more.

Old Dobbin, who could be kept in the road without guiding, had  
something on the automobile for courting trips.

### BOND ELECTION

WATER MAINS ISSUE TO BE  
PASSED UPON BY VOTERS  
DURING JANUARY

(Continued from Page 1)

taken to provide additional water  
mains for certain sections the city  
will be greatly handicapped in tak-  
ing care of this additional service.

"We want to again call attention  
to the fact that the southeastern  
section of the city is greatly in need  
of several additional distributing  
mains. The water department will  
not be able to render satisfactory  
service in this district next summer  
unless these mains are installed. As  
matters now stand there are no funds  
available for the purpose of laying  
these mains.

"We again call attention to the  
need of city garage, store house and  
material yards as set forth in report  
referred to. This is a matter that  
we believe should also have consid-  
eration at once.

"At the time these matters were  
presented to your honorable body the  
recommendation that a bond election  
be called in the near future to sub-  
mit the proposition for voting \$100,-  
000 bonds for the purpose of pur-  
chasing and laying water distribution  
mains and \$26,000 for the purpose  
of purchasing suitable grounds and  
erecting garage, storeroom, and the  
like, thereon was concurred in, it  
was thought advisable to delay the  
election until later.

#### No Additional Tax Levy

"We would respectfully urge that  
this matter be taken under consid-  
eration again and that an election be  
called sometime in January, as im-  
mediate action is required if any relief  
for the water department before next  
summer is going to be had through  
the issuance of these bonds. The  
bond redemption and interest on the  
\$100,000 bond issue proposed for wa-  
ter mains can be taken care of out  
of the revenues of the water depart-  
ment and if it is thought best the  
bond redemption and interest on the  
\$26,000 bond issue proposed for gar-  
age, store house, etc., can be taken  
care of partly out of the revenues of  
the public service department and  
partly out of the general budget. No  
additional tax levy need be made on  
account of these two proposed bond  
issues."

#### Report of Last September

City Manager Watson, in the above  
report, refers to a report made by  
him to the trustees last September.  
In the September report he goes into  
detail concerning the desired im-  
provements. He fully points out the  
necessity of extending the water ser-  
vice and the decision of the trustees  
last night to call the election in Jan-  
uary was also based on the detailed  
September report.

In the former report, the city man-  
ager urges that ground adjacent to  
the city hall be secured for a city  
garage, storerooms and yards for  
municipal materials.

The trustees last night instructed  
City Attorney Evans to start the nec-  
essary legal action to provide for the  
election in January, the exact date  
not yet being decided upon.

### OPEN TO PUBLIC

EXCELLENT FEATURES APPEAR  
AT COOK'S, JUST OPENED  
AT 128 SOUTH BRAND

Spick and span and in perfect or-  
der, Cook's hostelry in the new build-  
ing at 128 South Brand boulevard  
opened its doors to the public this  
morning. Booths, tables, chairs,  
fountain and other furnishings are in  
dainty French gray. The walls are  
in neutral shades, with a frieze in  
conventional design in pastel shades  
of pink and blue. The inverted light-  
ing system is supplemented in the  
booths with electric lights in candle  
effect, with lamp shades in harmony  
with the pastel shades in the wall  
decorations.

A large floor vase of chrysanthem-  
ums decorates one corner of the  
front of the store; a rectangular bas-  
ket of ferns and pink begonias, and  
rose-pink carnations on the tables  
give just the note of color to set off  
the French gray finish.

The fountain is up-to-date in every  
particular and both hot and cold  
drinks are dispensed. Alfred's ice  
cream is served, Cook's having the  
exclusive sale of this cream in Glen-  
dale.

Kaighan's superlative candies are  
sold at the candy counter. Breakfast,  
lunch and dinner are served every  
day, and Cook's specializes on Sun-  
day night chicken dinners. The cook-  
ing is "really, truly" home cooking,  
Mrs. Cook says, and her slogan is  
"meals with the home flavor."

A feature that will prove popular  
in the dining room is a child's table  
and four chairs. Any little child's  
dinner will certainly taste better and  
do him more good served on this lit-  
tle table.

The kitchen is equipped with a  
huge range, a steam oven, a meat  
cutter and every other up-to-date  
convenience.

Everything about the place, from  
the street door to back door of the  
kitchen, is exquisitely clean and san-  
itary—and taken all in all, it seems  
likely that Glendale residents will  
soon be paraphrasing Owen Meredith  
thusly:

"We may live without poetry, mu-  
sic and art;

We may live without conscience, and  
live without heart;

We may live without friends; we  
may live without books;

But people of Glendale can't live  
without Cook's."

PASADENA PARADE

(Continued from Page 1)  
mitties may organize and begin  
preparations.

**Election of Officers**  
Chairman Rowley called attention  
to the fact that it is approaching the  
time when new officers are to be cho-  
sen for the association, but no date  
for the election was set at last night's  
meeting.

The association voted to donate  
\$5 from its treasury to the charity  
fund.

Brief talks were made by a num-  
ber of those present on various mat-  
ters concerning Glendale's civic af-  
fairs.

Those present were H. C. Ellis,  
Calvin Whiting, E. C. Tripp, C. D.  
Lusby, Roy L. Kent, L. T. Rowley,  
L. E. Mason, C. C. Cooper, A. R.  
Eastman, A. T. Cowan, W. B. Kirk,  
W. S. Ingram, J. G. Huntley, C. M.  
Hollister, H. M. Calkins, W. B. Kel-  
ly, Ezra Parker and Herman Nelson.

### Chamber Names Committee

As The Evening News was going to  
press this afternoon, the announce-  
ment was made that the chamber of  
commerce had appointed a commit-  
tee to confer with a committee from  
the Greater Glendale Development  
association concerning a plan to pro-  
vide a Glendale float for the tourna-  
ment of roses parade.

The members composing this  
committee are H. F. Coker, chair-  
man; F. H. Vesper, W. R. Phelon,  
Mrs. Mabel Tight, Dr. Jessie Russell,  
R. F. Kitterman, Mrs. E. W. Kinney,  
and Miss Eva Daniels.

## OUT FOR OIL

WELL IS BEING DRILLED ON  
EDGE OF GLENDALE; NEW  
MACHINERY ON SITE

(Continued from Page One)

that territory I say of this. Within  
a few months Glendale will awake to  
the fact that a great oil producing  
section is at its gateway."

### Drill Runs by Electricity

Electricity is the motive power for  
the drill. Connection has been made  
with the city wires, the lines to the  
scene of the drilling running from  
Howard street to Campbell, then to  
Mountain, then to the site of opera-  
tions.

The operators have installed ex-  
pensive equipment to carry the elec-  
tricity to the drill.

At the present time about twelve  
men are being employed in beginning  
the work under the direction of  
Messrs. Bower, Henry and Bretz.

Anticipating that oil in great  
quantities will be struck, they have  
had the old Wicks reservoir prepared  
to receive the "gusher."

"I have spent many years of my  
life in mining and I know forma-  
tions," said Mr. Henry today. "For  
the past nine months I have been in-  
vestigating the oil situation rather  
fully with Mr. Bower, who opened  
the Newport field, and I am confi-  
dent we have a big producer coming  
in on the property we have under  
lease."

Messrs. Bower, Henry and Bretz  
are operating under the name of the  
Glendale Oil Syndicate.

method of coming down upon them  
from the sky was thought of.

### FORTRESS TO BE SANITARIUM

GENEVA—Switzerland's strongest  
Alpine fortress, St. Maurice, is to be  
dismantled and converted into a tu-  
berculosis sanitarium. It is at an  
elevation of 1000 feet and the sev-  
eral millions of francs spent upon  
it for defense, it is said, have made  
many improvements that may be uti-  
lized in its new use.

### MAN REFUSES TO PAY BARBER

NEW YORK—When David Schaeffer  
seats himself in a barber's chair  
in his home town, Bridgeport, Conn.,  
he expects to get a little nap and  
considerable hair cut, all for 35  
cents, and he was a surprised and in-  
dignant man when he arose from a  
chair in the Grand Union barber shop  
here and received a check for \$4.85.

The barber enumerated on his fin-  
ger—of which he had just enough  
without using his thumbs—all the  
advantages Mr. Schaeffer had de-  
rived from the Grand Union barber  
shop. It seemed that he had had a  
60-cent haircut, a 25-cent shave, a  
50-cent singe, a 50-cent wash, a 75-  
cent shampoo, a 65-cent massage, a  
10-cent manicuring and a rub which  
the Grand Union sells for \$1.10.

Mr. Schaeffer and the barber, un-  
able to reach any compromise, went  
to Essex Market police court, where  
Magistrate Sweetser decided that the  
improvement in Mr. Schaeffer's ap-  
pearance might be estimated fairly.  
At his direction the barber returned  
\$2.85 to Mr. Schaeffer.

## Reopening Sale!

of the Glendale

### Poultry & Pet Stock Exchange

Glendale Poultry and Pet Stock Exchange will reopen under  
new management, at its new quarters, Monday morning, December  
13, at 8 o'clock.

The new firm will carry a full line of Poultry, Pet Stock, Sup-  
plies, Animal and Bird Foods of all kinds, Grain, Brooders, In-  
cubators, etc.

Former patrons are assured the same courteous treatment ac-  
cording to the old management. Call and get acquainted with the  
new owners.

Don't forget to ask about our SPECIAL CANARY SEED  
MIXTURE. A trial will convince you.

BABY CHICKS NOT LATER THAN JANUARY 1.

## DOUBT VALIDITY

CIVIC CENTER BOND ISSUE  
WILL BE SUBMITTED ONCE  
MORE TO GLENDALE

(Continued from Page 1)  
ed last night, it was pointed out that the trustees, under the circumstances, have but two moves to make. One is to have the supreme court pass on the validity of the issue, the other is to re-submit the proposition to the voters. It was stated that a decision from the supreme court cannot be obtained for several years. The verdict of the people can be obtained at the same time as the special election on the water mains bond issue in January. The trustees decided to take the latter course for quick action.

### Must Segregate All Items

It is stated that the civic center bond issue must specifically state just what amount of money is to be spent on the swimming pool, the gymnasium and the museum and, too, the site.

At the time the hurried call for the civic center bond issue was made by the trustees, at the request of a delegation, City Attorney Evans declared he did not believe it was valid, but when the call was issued there was not time left to change the proceedings and still submit the propositions to the voters at the same time as the general election. So the bonds were favorably voted upon. Now comes the firm of experts, which has passed on the legality of all the bond issues of Glendale, with the statement that a supreme court decision is necessary to show the validity of the issue.

Because of the fact the voters have once approved the proposition, the trustees are confident they will again vote favorably. And as a water mains bond issue is necessary for January, both propositions will be submitted at the same time.

The city has approved more than fifteen bond issues, but this is the first time, it is stated, that an issue has been questioned.

## SO LONG LETTY

SNAPPY FUN FILM WILL BE  
AT GLENDALE THEATRE  
SUNDAY AND MONDAY

"So Long, Letty," the Robertson-Cole super-special, which opens at the Glendale Theatre for a run of two crowded days, Sunday and Monday of the coming week, is one of the snappiest comedy-dramas of the season. Al Christie, who has attained world-wide fame as a producer and director of comedy photoplays, is responsible for the picturization of "Letty," which he adapted for the screen from the Oliver Morosco stage success of the same name. On the legitimate stage "So Long, Letty," was received with acclaim from coast to coast and the camera version has met with the same success wherever it has been shown.

Mr. Christie has utilized the camera to bring out many of the fine situations of the play which could not be adequately shown on the stage. The story calls for a number of outdoor scenes and the territory in the vicinity of San Francisco gave the producer just what he needed to beautify the picture.

All the members of the cast are really movie stars within their own right. T. Roy Barnes, Grace Darmond, Colleen Moore, and Walter Hires are seen in the four leading roles. Here is an unbeatable combination.

The story of "So Long, Letty," hands you many a laugh, at the same time teaches a lesson with a deep meaning. It is a tonic for the familiar domestic malcontent whose wife (or husband) always has the wrong opinion—but why tell it? The picture must be seen to be appreciated, and "standing room only" is likely to be the rule on the two days of its showing in Glendale.

## MORE BUILDING

TOTAL OF \$18,475 IS ISSUED  
IN PERMITS ON WEDNESDAY;  
METER INSTALLATIONS

Building has taken another spurt in this city, after being comparatively quiet for a few days. On Wednesday a total of \$18,475 in permits were issued at the city hall.

Installation of light meters ordered Wednesday, indicating dwellings about completed, were as following:

E. Woodyard, 1228 East Harvard (rear); S. Smith, 134 North Olive street; R. W. Phillips, 204 East Dryden; J. A. Newton, 121 North Jackson; Mrs. P. L. Shears, 216 South Kenwood; J. R. Ervey, 416 Hawthorne; R. F. Gomes, 1244 South Walnut; W. F. Hedges, 121 East Park; P. J. Nelson, 409 West Milford.

### PLAN FLOATING CREMATORY

TOKIO—Tokio soon will have a floating crematory. Two specially constructed vessels of 150 tons each with facilities for cremating thirty bodies at a time will be used. The vessels will anchor at a specially prepared wharf and after funeral services have been duly observed on board will leave for a point about seven miles off the bay for cremation. In view of the moderate charges as well as the general convenience, the plan promises to prove successful.

## CITY TRUSTEES

MANY MATTERS OF LOCAL  
INTEREST CAME UP FOR  
ACTION BY BOARD

(Continued from page 3)  
the Southern Pacific Railroad company, for a spur track in accordance with the plan previously presented to the board. The same was read and laid over.

On motion of Trustee Henry an ordinance previously presented to the board providing for widening of Los Feliz road was adopted as Ordinance No. 413 by the following roll call: Ayes—Bartlett, Henry, Robinson, Shaw, Stephenson. Noes—none.

On motion of Trustee Stephenson an ordinance previously presented to the board amending section 2 of the salary ordinance was adopted as Ordinance No. 414, by the following roll call: Ayes—Bartlett, Henry, Robinson, Shaw, Stephenson. Noes—none.

On the request of the city clerk change was ordered to be made in the minutes on page 685, volume 7, on the date of April 8, 1920, showing that the city manager presented a written communication to the effect that the Sycamore Canyon company had applied for temporary water service as same being accompanied by copy of the application.

## INSTALLATIONS

TWENTY-SEVEN ARE ALREADY  
REPORTED BY GLENDALE'S  
SERVICE DEPARTMENT

Already this month there have been twenty-seven installations of electric light meters ordered of the Public Service department, the most of them for new residences approaching completion. Not a day passes but several families move into houses just finished or nearing completion. Often only one or two rooms are hastily fitted up for occupancy, so urgent is the demand for new quarters, and the remaining work is done more leisurely.

### PULLING TEETH CURES INSANE

TRENTON, N. J.—Sixty-two persons were discharged from Trenton state hospital last month, practically cured of mental disorders. This is the largest number of patients discharged in a single month. The report emphasized the importance of the effect diseased teeth have on the mind. Removal of diseased teeth was found in some cases to be the only operation necessary to restore normal mental condition.

### IT WAS ONLY COLORED GLASS

LONDON—Sir George Younghusband, keeper of the jewel house at the Tower of London, has just revealed the fact that one of the British crown jewels, of which he is custodian, is an imitation.

The stone was believed to be a magnificent aquamarine, but proved on examination to be only a piece of colored glass.

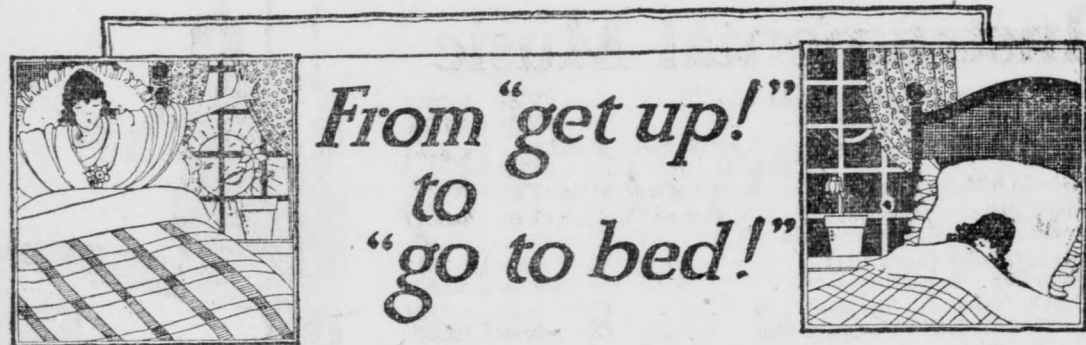

It figured first in the crown of King James II. The mystery of when the imitation was substituted for the real stone has not been solved.

## Western Electric Appliances Serve You—

**RIGHT** through the day and clear up into the evening, you can count on Western Electric Appliances to make your housework a pleasure.

First the Western Electric Washer and Wringer. You put your soiled clothes into the cylinder, turn on the current, and the motor does the washing for you. No rubbing, no scrubbing, and you're all through within an hour.

Now, while the morning is still young, you have time for a thorough house-cleaning—if you use a Western Electric Vacuum Sweeper. Here is a light machine for your heaviest work.

Just before lunch, you'll find delight in some "work" at your Western Electric Portable Sewing Machine. Now that you don't have to do the pedaling any more, think of the fun in making pretty things to wear.

Do the ironing when most convenient. With a Western Electric Iron, it won't take long, and what used to be a task, becomes so easy and pleasant.

Then, as for washing dishes, you can leave them all 'til evening. Just set them inside your Western Electric Dishwasher and Kitchen Table; and after supper, switch on the electricity. Hot, soapy water is splashed over and over the dishes, and you are saved the bother of washing and drying them.

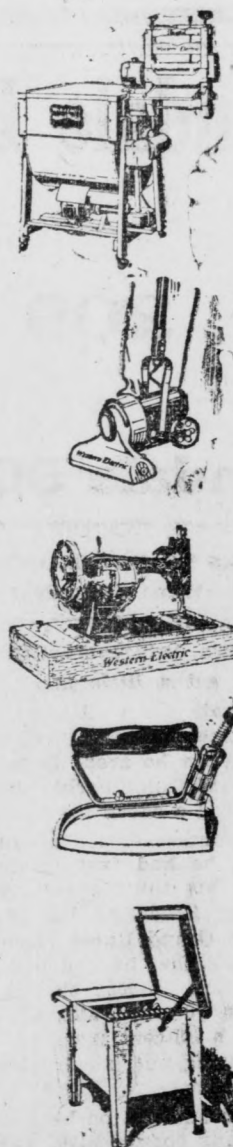

Do your housework the Western Electric way to save your time and energy. After a Western Electric day you feel rested when night comes.

### NEW RESIDENCE

S. W. FENTON, WHO RECENTLY SOLD BUSINESS, IS NOW IN HIS NEW LOCATION

S. W. Fenton, who recently sold his grocery business at 714 South Brand, has moved into the residence property he traded for at 530 Oak street, which was owned by Mr. Johnson, who bought him out. Mr. Johnson came to Glendale about a year ago from Philadelphia, accompanied by his wife and four children. Soon after his arrival he bought C. H. Darling's property at 530 Oak, and some lots in that vicinity, having resolved to settle in Glendale permanently. He had been in the grocery business in Philadelphia and determined when he came here to acquire a store here at the first good opportunity, meanwhile taking a position as clerk.

There are 51,678 motor vehicles registered in St. Louis.

England obtained the banjo from America. It was brought to this country by the negro slaves. The idea originated in India. The unmusical name "banjo" seems to have been derived from "banya," the name of a Senegambian instrument of the guitar species.

# A LECTURE ON CHRISTIAN SCIENCE BY BLISS KNAPP, C. S. B.

In response to invitations extended by First Church of Christ, Scientist, Glendale, a large audience filled the church edifice Thursday evening to hear a lecture on the subject of Christian Science, by Bliss Knapp, C. S. B. The lecturer was introduced by Dale G. Vaughn, First Reader, who said:

"It was His work of healing that attracted the multitudes to Jesus and it is the healing of sickness that is today attracting thousands to Christian Science. But Christian Science brings even a greater blessing than that of physical healing. It is a religion imparting an understanding of God which brings health, happiness and peace into the lives of its followers. One of the opportunities to obtain authoritative information regarding Christian Science is that afforded by the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts.

"I take pleasure in introducing to you a member of that Board, Mr. Bliss Knapp, C. S. B., of Brookline, Mass."

The lecture was as follows:

An ex-mayor of New York declared, not long ago that "a person who wants to be honest nowadays must be a crank on honesty." This is a terrible way of describing the present conflict between good and evil, and the extent to which one must go to maintain his standard of right. Nations and individuals have been aroused as never before to combat a movement commonly known as Bolshevism; and while armed forces have gathered to oppose its military encroachments, its mental forces of demoralization in business and society operate apparently unhindered. But there is a remedy for such hidden evils in the promised Comforter which Jesus described, not as a person, but as the "Spirit of truth," which "will guide you into all truth." When Christian Science brought the return of primitive Christian healing, it raised that standard of Truth which makes us free in mind and in body.

I remember, when a child, with what amazement I first discovered that some people do not always speak the truth; and I remember my perplexity as I begged to be told how to detect falsehood in ordinary conversation. My difficulty gradually disappeared as I began to learn in Christian Science the right sense of honesty, based upon Principle. It is a keen detective of dishonest motives. We sometimes speak of that natural discernment as intuition; for intuition is the expressed intelligence of spiritual qualities. This may explain why so many spiritually minded women often go directly and unerringly to the very heart of a problem which seems to baffle the reasoning process of others. That very directness is sometimes called "a woman's reason."

## QUESTIONABLE STANDARDS

Those who are unwilling to obey an absolute standard of right, generally have a flexible standard which is sometimes called "the law of necessity." This phrase, "the law of necessity," applies to those who are honest in appearance, but who are quite ready to act dishonestly whenever the reward seems to shift about. Such a variable standard must be policy or deception, and not Principle. In the book of Job, in the Bible, you may remember how Satan once challenged the purity of Job's goodness, possibly because the Deceiver is always the most deceived. So he insisted that Job's goodness was nothing but a subterfuge to gain some reward in heaven—that is to say, a form of selfishness. Those who make selfishness instead of Principle the standard of their actions must agree with Satan in upholding "the law of necessity." But the framers of the American Declaration of Independence recognized an eternal Truth when they wrote that men "are endowed by their Creator with certain unalienable rights; that among these are life, liberty, and the pursuit of happiness." The God of Christendom, therefore, is the divine Principle or Creator of these life-giving and liberating fruits of the Spirit, which are expressed unselfishly in right minded men and women everywhere.

An intelligent pagan of education and refinement may be found obeying the ordinary canons of honesty, because he has learned that honesty will serve his best interests, therefore he will be found acting as honestly as he can. But his standard of honesty is not the Christian God, or the divine Principle of honesty; for he worships a god fashioned by the hand of man. So long as he has no Principle, he can have no real qualities derived from Principle, and therefore no real sense of honesty. Thus a man's standard of right depends entirely upon the nature of the God he worships.

## PRINCIPLE

According to the Century Dictionary, "There are no two words in the English language used so confusedly one for the other as the words **rule** and **principle**. You can make a **rule**; you cannot make a **principle**; you can lay down a **rule**; you cannot, properly speaking, lay down a **principle**. . . . You can only declare it. . . . It is a **principle** that the Sabbath was made for man." The fact that the fourth Commandment is an emanation from Principle was the lesson Moses learned from his experiences in the wilderness with the manna. Always there was enough for their daily supply and nothing more; but on the sixth day, a supply of bread for two days could be gathered. The same God who supplied the Children of Israel with food to eat for forty years, also set apart the seventh day for a Sabbath rest from toil. This same God or Principle supplies every need, and because He supplies our every need, He is not cold and austere. He is indeed the loving Father who blesses all mankind.

In her book "Rudimentary Divine Science," Mrs. Eddy answers the question, "What is the Principle of Christian Science?" in these words:—"It is God, the Supreme Being, infinite and immortal Mind, the Soul of man and the universe. It is our

Father which is in heaven. It is substance, Spirit, Life, Truth, and Love.—These are the deific Principle."

## IDOLATRY

Contrast, if you will, the guidance of divine Principle through law, with the practice of heathen rites and ceremonies. In one of the great cities of China, for example, there stands a brave little Christian Scientist church, dedicated to the healing ministry of our great Master. Surrounding this church, there are heathen temples filled with idols fashioned by the hand of man. Not long ago a severe drought afflicted the city, and for many days the pagan priests implored their gods to send rain. When the drought continued unabated, the priests in one of the temples took matters into their own hands, and proceeded to punish the gods. The idols of their own making were removed from the cool, spacious temple and placed out of doors in the full heat of the sun. Then the priests began to mock and chide them like so many children, even taunting them with such remarks as, "Stay there and see how your little gods bake in the sun." And there they sat until the rain came. About the same time an accident, which was immediately charged to the anger of the gods, occurred in one of the mines of Korea. So the mines were closed until exorcist priests were brought from long distances to perform rites and ceremonies intended to appease the wrath of the gods. It seems, therefore, that the heathen deity which is liable to wrath, is very much like the Satan of the Bible.

## CHRIST DETHRONES SATAN

The Founder of Christianity repudiated the notion that Satan could cast out Satan, and gave as a reason that a kingdom divided against itself cannot stand. He once spoke of a certain woman who had been bowed together eighteen years, "and could in no wise lift up herself," as "a daughter of Abraham, whom Satan hath bound, lo, these eighteen years." He healed her immediately by the power of God, and it was on the Sabbath day. The Christian God therefore does not send disease, but He heals disease. He is, in other words, the divine Principle of our health and holiness.

To the Christian Scientist, the Christ idea bears the same relation to the divine Principle as the sun's rays bear to the sun itself. Christ Jesus declared himself to be the light of the world—the same light that appeared in the beginning when God said, "Let there be light; and there was light." That light was the saving Christ; but God, the divine Principle, was the Creator of it. In due course, the coming of that light as a saving power was spoken of as "the appearing of God with us," which is the appearing of divine intelligence in human consciousness, healing and saving mankind.

Bible scholars make a distinction between Christ and Jesus, which Christian Science explains; for God appointed the man Jesus to the office of Christ. Christ Jesus therefore was the promised Messiah, or Mediator between God and men. He rightly declared himself to be, not Jesus, but the Son of God, bearing witness through his healing ministry unto the Christ, Truth, that redeems and saves all mankind.

## HEALING BY FAITH

For a long time professed Christians fell into such idolatrous methods that they utterly lost sight of the healing power of Christ. All they beheld was the visitation of evil, and they prayed after the manner of heathen to appease the wrath of their god. In effect, they really became worshippers of Satan, and that continued until a young priest of the church started a movement which made it possible for people of every rank and station to read the Bible in their own language. This was the great reformer, Martin Luther. As a result of this Bible study, the people began to gain a more correct view of God, and occasional instances of healing rewarded their faith.

A very significant and important result of Luther's Bible study was the healing of his disciple, Melancthon. The man had lost consciousness, his eyes were set, and his countenance had become ashy. When Luther saw his dearest friend in that condition, he was visibly frightened. Then, rousing himself, he exclaimed:—"O God, how has the devil injured this thy instrument!" There was the evidence of his Bible study; for he refused to attribute that sickness to God. Rather did he appeal to the Giver of all good to save his friend. To use his own words, I "feared His ears with all His promises of healing, which I could not read out of Holy Writ; so that He could not but hear me, if ever I were to trust in His promises." Then grasping Melancthon by the hand, Luther exclaimed, "Be of good courage, Philip; thou shalt not die."

He has pleasure in life, not in death. . . . Therefore give no place to the spirit of sorrow, and be not thine own murderer." In response to that right sense of God's loving care, Melancthon's breath revived, but he acted very much like a drowning man who begs to be let alone that he may die in peace. "By no means, Philip," cried Luther; "thou must serve our Lord God yet longer." When food was brought, Luther burst out with the threat, "Thou must eat, or I will excommunicate thee." It is interesting to know that Melancthon responded to that true sense of God and lived twenty years longer.

## MRS. EDDY'S EARLY PREPARATION

It is not at all uncommon for devout Christians to be healed because their study of the Bible opens to them a more correct view of God. Calvin, Knox, Wesley and other Christian worthies have manifested wonderful healing power, as their prayers lifted thought to glimpse God's true nature. Such child-like qualities as humility, spiritual receptivity and teachableness communicate these heavenly blessings to human consciousness. So it is recognized as a Christian duty to instruct

the receptive thought of the child in the saving grace of God. It was this Christian culture that Mrs. Eddy, the Discoverer and Founder of Christian Science, received from her mother; for Mrs. Eddy was taught from her youth to look to God for deliverance in every time of trouble. When Mary Baker was once taken with a fever, her mother reminded the little girl of God's loving care and protection, and assured her of His healing grace, if only she would turn to Him in prayer. Mary did pray fervently to God for deliverance from the fever, and she was quickly healed. Naturally her mother was glad; for the healing had confirmed her loving trust in God's care.

Many proofs of healing attended Mrs. Eddy's walk through life, attesting God's ever present and continuing faith in His goodness and power. Her faith was put to the severest test in 1866, when she was facing death itself. Turning for consolation to her Bible, she began to read from Luke's Gospel the healing of the palsied man. The account of the healing held her attention as never before, and she must have glimpsed the great Truth that the divine power which had restored that man to Jesus' time was still operative, for God's power can never change. The result was as immediate; for she arose from her bed perfectly well, dressed herself and started her family by her sudden appearance. This was a most wonderful proof to her that God is the great Physician, whose healing power is changeless; and that the heathen deity which is liable to wrath, is very much like the Satan of the Bible.

## PERSONAL ITEMS

Mrs. Eddy is known to thousands of grateful men and women throughout the world to be the Discoverer and Founder of Christian Science, and because of that, she commands our profoundest reverence and gratitude.

It was my privilege to know something of her as a loving, unselfed woman, the kindest friend I ever had. My father was a deep student of the Bible, and when Christian Science healed two members of our family, he began the study of this Science and became an earnest Christian Scientist. For many years his parents were closely associated with Mrs. Eddy, who was his pastor, teacher and friend. At one time Mrs. Eddy spent a week at our home, and I then had the opportunity of seeing her to be a gentle, affectionate woman, interested in our pets and problems, laughing with us and sympathizing with us, yet always mindful of her great mission to suffering humanity.

An incident that occurred during her visit with us has always stood out vividly in my memory. One morning, before breakfast, my sister sat down at the organ and began to play and sing the good old gospel hymn taken from the psalms, "Weeping may endure for a night, but joy cometh in the morning." My father joined in the song, and when it was finished, Mrs. Eddy's door opened and she appeared, her face radiant. Then she told us that she had continued all night in prayer over some problem, and the answer had come when she felt the spirit expressed in that song. This incident evidently impressed her; for several years later, she referred to it in a letter to my father.

## BASIC RULE OF CHRISTIAN SCIENCE

Ever since the time of the early Christian Fathers, those who had received some proof of God's power and willingness to heal almost invariably lost the gleam that their pure faith had brought them; and they dropped back, as did Luther, into dependence on material means and remedies according to the old custom of their times. But Mrs. Eddy's purpose was to seek something more than faith, even the understanding which would enable her to heal all manner of sin and disease with the directness and regularity of a Science; for that which one really understands can never be lost.

Possibly the first step in gaining the Science of Christian healing came with her ability to detect in her own mind the difference between two thoughts which come from the divine Principle, and the aggressive suggestions of the carnal mind; for he said: "To be carnally minded is death; but to be spiritually minded is life and peace." Here are two opposite sources of thinking, as opposite as God and Satan. The thoughts coming from God express the joy and harmony of life; but the suggestions of the carnal mind seek to drag one down to sin and death. Knowledge of this difference, however, is not enough in one's thought at the same time, Mrs. Eddy was impelled to work from the single viewpoint that "to be spiritually minded is life and peace." This, of course, involved a search into the understanding of the divine or spiritual Mind, in order to lay hold of that life and peace. Such a scientific segregation of thought is the first step in learning to pray aright.

Of all the systems of religion or philosophy known to men, none but the teachings of Christ Jesus and of Christian Science ever have held consistently to the one spiritual viewpoint. These teachings, moreover, are the only religions that have ever demonstrated the divine power to heal physical sickness as well as sin. A single sentence in Science and Health with Key to the Scriptures, presents the process of reasoning by which Mrs. Eddy gained that healing power. It is as follows: "Reasoning from cause to effect in the Science of Mind, we begin with Mind, which must be understood through the idea which expresses it and cannot be learned from its opposite, matter." This is indeed the rule of logic which bases the teachings of Christian Science.

Reasoning from the viewpoint of God, or divine Principle, one must naturally see all things as God sees them—complete, harmonious and eternal. His true nature can be understood through the idea which ex-

presses that nature, even as the idea of honesty reveals the nature of an honest God, but that nature can never be understood from its opposite, dishonesty. Since Jesus proved that healing, like honesty, expresses the nature of God, one needs only to recognize and heed God's promises to heal in order to experience that healing power. Like honesty and goodness, this healing power must be obeyed from the heart and not the head, and only as it is thus lived can it properly be understood and demonstrated.

## JESUS' EARLY EXPERIENCES

Mrs. Eddy has declared in her book, Science and Health, that "the Sermon on the Mount is the essence of this Science." Let us now apply the test of our rule of logic to that standard of Christian teaching. After Jesus was baptized by John the Baptist, a voice from heaven was heard to say, "This is my beloved Son, in whom I am well pleased." When Jesus attempted to use his power selfishly, it was not surprising therefore that Jesus was immediately driven into the wilderness, and tempted to use his power for selfish ends. Satan offered him all the kingdoms of the earth, if only he would bow down to the claims of evil; but Jesus knew the impossibility of obeying two such opposites as God and Satan. When he realized that impossibility, the devil departed, and only the consciousness of good remained. In the words of the Epistle to the Hebrews, "Though he was a Son, yet learned he obedience by the things which he suffered."

Having learned the divine logic that one can work only from God's viewpoint, and that the divine Mind can be understood through the idea which expresses it, Jesus entered upon his ministry "teaching in their synagogues, and preaching the gospel of the kingdom, and healing all manner of sickness and all manner of disease among the people."

## SERMON ON THE MOUNT

Scarcely any one listened at first to the teaching and preaching of Jesus, but multitudes thronged him for the healing. The lessons he gained from those experiences are summarized with matchless simplicity in the first and second Beatitudes of the Sermon on the Mount.

"Blessed are the poor in spirit; for theirs is the kingdom of heaven." Here Jesus pronounces a blessing on those who have begun to turn from matter and even from the healing of the body, naturally to spiritual truth wherever spoken, and that spiritual receptivity, which is born of God, opens the way to heavenly harmony. "Blessed are they that mourn; for they shall be comforted." In the second Beatitude, Jesus considers those who have learned through suffering to turn from matter. Their suffering had prepared them for the Christ healing which brings them greater comfort than mere release from physical ills. It brings the peace and harmony of God's kingdom, making the comfort as abiding as is the kingdom itself.

These two groups of people seem to be the only ones ready for the kingdom. But Jesus is not unmindful that they are still on probation. Their blessings thus far has been partly the work of others, as when a child first begins to walk; for one group was helped along by a preacher, and the other by a healer. Now they must learn to walk alone. The only way by which they can gain the healing power for themselves is through the quality of meekness. "Blessed are the meek; for they shall inherit the earth." Dominion over all the earth is gained, not through matter or the human will, but through the divine idea of meekness. Considered as a group, the receptivity that leads to heaven, the yearning that gains the divine comfort, and the meekness that achieves divine power, are all ideas of God. Through these ideas, we perceive God's true nature, and we gain perfection by demonstrating these ideas.

## THOSE CALLED OF GOD

It is sometimes charged that Christian Scientists make too much of the ministry of this Science, but the critics should remember the lesson of the Beatitudes, that only two groups of thinkers are really prepared for the kingdom. What Jesus iterated in the Parable of the Great Supper. When the invitations to the feast were given out, you may remember, all made excuses. One had purchased another oxen, and so on. They all begged to be excused but one. That one could not come because he had married a wife. They were all so absorbed in material things that they gave no heed to spiritual things. So the master of the feast found it necessary to turn to those who might be awakened through suffering to seek the kingdom. He invited the poor, the maimed, the halt and the blind, the response that came, and still there was room for not even human suffering had alienated the faith of many from their reliance on matter.

Such lessons have taught the Christian Scientist to serve those who are drawn of God, because they are ready and willing to receive the blessing according to the plan of our great Master. Unless they come willingly, through the teaching or through the healing, they are not prepared to understand the spiritual message; for spiritual things must be "spiritually discerned." Jesus warned us, moreover, not to give that which is holy to the unprepared thought. How many there are who have read a few pages of our textbook, only to declare with a sweep of the hand, "There is nothing in it." Even so, the healing challenges attention and it cannot be explained

away. One should remember that there is something else beside human intellect necessary to comprehend spiritual things. It is indeed that spiritual sense, born of God, which overcomes sin and disease first in one's self, and then in others. But if one is wedded to some position in his church, business or society, and he begs to be excused, he is not ready for the blessing. Hence the uselessness of all proselyting propaganda. God must indeed open the way to every sincere seeker through God's own ideas.

## SIGNS OF THE COMFORTER

When Mrs. Eddy established her church in 1879, she declared that its object was to "reinstatute primitive Christianity and its lost element of healing." The healing of sin has always been regarded as a province of the Christian church. We learn in Christian Science that God's power is always available to heal physically as well as morally. The same prayer healed physically and morally in Jesus' time, and that prayer can never be divided in its healing effect when one understands the meaning of the Sermon on the Mount.

John the Baptist once seriously questioned whether Jesus was really the promised Saviour. Jesus' reply to John's messengers was the simplest and most convincing statement which would identify the messenger of God, for all time, with the works of healing. "Go and show John again those things which ye do hear and see; the blind receive their sight, and the lame walk, the lepers are cleansed, and the deaf hear, the dead are raised up, and the poor have the gospel preached to them. And blessed is he, whoever shall not be offended in me." The Christian Science Church has adopted a similar method for answering honest inquiry about the Comforter, which Jesus promised to send us from the Father, and which he defined as the "Spirit of truth." Therefore all Christian Science churches throughout the world provide a mid-week testimony meeting, at which members of the congregation may testify to the healing power of God, which they themselves have seen or experienced.

## THE BIBLE INTERPRETER

The divine power which can do good, but not evil, has been interpreted in Mrs. Eddy's book, Science and Health with Key to the Scriptures, with such clearness and simplicity, that it is a frequent occurrence with the sick and the sinning to be healed by reading this book. The last chapter of Science and Health contains one hundred pages of testimonials by those who have been healed of organic and functional diseases simply by reading and studying this book. Practically every sin and disease humanly known has, at some time, been healed by the teachings of Christian Science. The question, "How does Christian Science heal?" is answered by these fruits. There is no mystery about the operation of Christian Science, for the power of God's truth is in itself, and it needs only to be understood in order to be manifested. Those who receive such blessings, naturally give thanks to God and to His Christ for the promised Comforter.

It should be well understood that Science and Health with Key to the Scriptures, does not take the place of the Bible, but it has so clearly interpreted the Bible as to bring a return of primitive Christian healing. Moreover it confirms the divinity of Christ Jesus and of his wonderful works. The fact that people have been healed of cancers, tumors, consumption, the drug habit, and so on, simply by reading a book and gaining its spiritual import, should be a most convincing proof that it is not the human will or carnal mind which does the healing. Even Jesus himself was forbidden to use his own will in healing, for it is the truth, not God and man that makes us free. Healing is not gained from a knowledge of sin, matter or the carnal mind; it is gained from the truth about the spiritual Mind where life, health and happiness abound. Since the divine Mind is everywhere present, it is never transmitted nor projected. Since the facts about God are the same everywhere, one needs only to realize those facts wherever he may be, to know they are just as true everywhere, right where a patient most needs the help. As one realizes that divine Presence, together with the nature of that Presence, he must realize the very presence of life, health and freedom; for "Where the Spirit of the Lord is, there is liberty."

## ANIMAL MAGNETISM

It should be perfectly evident that one can never suffer from aught that comes from the spiritual Mind, for that Mind brings only life and peace. If he suffer at all, then, it must come from the carnal mind, which is sin and death, and it must be by reason of his belief that God is afar off, which really is not true. Suffering, then, is really just a false belief about God's absence; for when one realizes God's ever presence, the belief disappears and the healing Presence appears. St. Paul described the effect of that false belief when he said, "The god that I would, I do not; but the evil which I would not, that I do." The same condition was referred to also by Job, who declared, "When I looked for good, then evil came unto me; and when I waited for light, there came darkness." Such mental darkness therefore is but a belief of God's absence—a belief in a power apart from God.

The belief in a power apart from God, which seeks to pervert one's natural goodness, is referred to by our dictionaries as "animal magnetism." It is not a modern invention, as you may observe from the reference to it by Job and St. Paul. Bible scholars concede the Book of Job to be one of the oldest in the Bible, and this Book describes in detail how Job succeeded in clearing himself from the influence of animal magnetism so that he could finally declare, "Yet in my flesh shall I see God."

Animal magnetism is undoubtedly what is meant by the term "Satan" in the Bible. It "changed the truth

of God into a lie," according to St. Paul, "and worshipped and served the creature more than the Creator." Its mental occultism was employed by the magicians and sorcerers to oppose the works of Moses and Jesus, the prophets and apostles. The modern exponents of animal magnetism are known as mesmerism, hypnotism, spiritualism, theosophy and such like. These systems all employ some form of vibratory suggestion, or transmission of thought, all of which is the product of the carnal mind, which St. Paul dominated sin and death. Only a finite belief of mind would need to be transferred from one place to another, and since it believes in the absence of God, it must be a false belief.

When animal magnetism assailed the loyalty of Simon Peter, his great Master gave him a sharp warning. "Simon, Simon," said Jesus, "Satan hath desired to have you, that he may sift you as wheat; but I have prayed for thee, that thy faith fail not." In addition to warning Peter, the Master did only one thing. He prayed that the faith which he himself had fostered in the consciousness of his disciple should not fail. The substance of faith which is born of God will survive the malice of the whole earth, and will eventually bring the individual under subjection to the divine Law, absolutely, completely and finally.

The mental qualities, or fruits of the Spirit, which come from God, cannot be hypnotized. "Know ye not," says St. Paul, "that to whom ye yield yourselves servants to obey, his servants ye are to whom ye obey; whether of sin unto death, or of obedience unto righteousness?" Evil suggestions therefore can have no government over an individual unless he willingly and voluntarily yields his obedience to them. As St. Paul declared to the Romans, "The law of the Spirit of life in Christ Jesus hath made me free from the law of sin and death,—free to do the will of infinite God."

## BOLSHEVISM

It is the nature of evil to claim autocratic power. This thought of autocracy seems to develop along two distinct lines; one through the autocracy of the individual, and the other through the autocracy of the masses known as Bolshevism. This movement is the will of the flesh, organized to war against "the fruit of the Spirit." It is an attempt to undermine the law and order which sustain the State, the church and the home. Let us suppose for the moment that such a movement were to gain its object; the result would be the reign of disorder and lawlessness, disintegrating our most cherished institutions. It would mean the reign of immorality, adultery, envy, hatred

and strife, which are the works of the flesh, and which have no part in the kingdom of God. And how can such moral obedience be established in the individual Bolshevism? Nothing definite or positive can be accomplished from any standpoint but that of God Himself. The heaven towards which the Bolshevism aims is the final destruction of all law, a condition in which God is eliminated and materialism reigns. To the Christian Scientist, on the other hand, heaven is gained not by the destruction of law, but by the fulfilling of law under the supremacy of the God who is Love; for "Love," declared St. Paul, "is the fulfilling of the law."

When we observe the motives of Bolshevism, as well as the effect of its crimes, it is quite clear that the great social unrest of to-day is but a phase of the last enemy. When the autocracy of individuals and the autocracy of the masses yield to the government of life, liberty and happiness, as it is expressed through divine Law, there can be no repetition of the experiences on Calvary.

## THE WAY OF SALVATION

Suppose Bolshevism has assailed the moral and economic standard of the great industrial plant, so that men regard their contracts as mere scraps of paper.—What is the remedy? It is to establish obedience to the moral forces which God bestows,—forces which bind man to fulfill his contracts, to deal honestly with his neighbor, and to maintain law and order as imperatively as these forces of God sustain the harmony of the universe. And how can such moral obedience be established in the individual Bolshevism? Nothing definite or positive can be accomplished from any standpoint but that of God Himself. The heaven towards which the Bolshevism aims is the final destruction of all law, a condition in which God is eliminated and materialism reigns. To the Christian Scientist, on the other hand, heaven is gained not by the destruction of law, but by the fulfilling of law under the supremacy of the God who is Love; for "Love," declared St. Paul, "is the fulfilling of the law."

The Christian Scientist learns through divine Love to heal the sick and the sinning and to establish a heavenly harmony here and now. The healing is demonstrated with such regularity and consistency as to prove the presence and operation of a fundamental law. Moreover, this law is so tangible and self-evident that it can be not only understood, but taught to others. Such a demonstrable law must have a source or Principle which we call God. By the footsteps of healing, even the Bolshevism may be led to recognize the presence of law and its governing Principle. He may even experience the heavenly harmony of obedience to the law of Love. Then he will have attained the only true freedom, for "Where the Spirit of the Lord is, there is liberty." The liberating truth which establishes health and harmony "on earth as it is in heaven," is indeed the promised Comforter, which Christian Science reveals and demonstrates.

## GIVE Flowers at Christmas

Flowers, ferns and plants are ideal Christmas gifts—they reflect the true Christmas spirit.

In making up your Christmas list there will be some one you wish to remember to whom a bouquet or a basket of flowers, a flowering plant or a potted fern in a pretty jardiniere will make a special appeal.

## Dr. J. Clarence Klamm

600 East Broadway Glendale 2342-W

Prices are dropping in some lines, and one may guess by the sounds that toes are being pinched.

**FOR LIBRARY****YOUNG PEOPLE WILL HAVE FINE DEPARTMENT; CHANGE IS ORDERED BY BOARD**

The Glendale library board has authorized the purchase of new book racks, a display rack, and a desk for high school students, which are to be installed in the basement, converting the juvenile room into more of a young peoples' room with a desk for reference purposes.

As a matter of convenience, since the number of books issued on one card is unlimited, the cards are now kept on file at the library. All adults' cards are filed upstairs and all cards are filed downstairs so long as borrowers are in high school, the object of this being to safeguard the reading of the young people.

If there is a child in the family they have the privilege of the use of the juvenile room and also if there is a teacher in the family. People who have neither children or the need of juvenile books are deprived of this privilege, because they take the cream of the good books.

**New Books Every Week**

New books are put out in the adult department every week, both fiction and non-fiction. Only a conservative portion of the money appropriated for the purchase of new books is spent for the juvenile department.

When the young peoples' department is established it is planned to have an evening set aside as young peoples' evening, which will be worked out later.

The members of the library staff appeal to the public to co-operate in this matter of safeguarding the young peoples' reading. Books which would be popular both in the young peoples' department and in the adult department will be duplicated in both departments.

The new feature of a reference desk should appeal strongly to all students.

New light standards have been installed on either side of the entrance and add greatly to the appearance of the building.

**EXPECT RUSH OVER OIL**

VANCOUVER, B. C.—Government authorities of British Columbia are preparing to cope with a rush toward the Arctic circle comparable to the Klondike gold rushes of 1897 as a result of word which has reached here of the striking of oil on the Mackenzie river near Fort Norman, 200 miles from Circle.

**WE'RE JUST LIKE SAVAGES**

LONDON—Preaching at St. Paul's cathedral, Canon Alexander said that two favorite occupations of savages—dancing and looking at pictures—were the two favorite occupations of what was known as modern civilization.

**COMPTROLLER****DUTIES OF OFFICER CAUSE DISCUSSION AT BOARD OF FREEHOLDERS**

What is a comptroller? And what are the duties of a comptroller? Also, should the city of Glendale have a comptroller? If so, what powers shall be given him by the city charter? And shall he be elected by the voters at large or appointed by the city council?

Members of the board of freeholders engaged in framing the proposed city charter for Glendale are asking these questions, for it is suggested that a comptroller be added to the city's administrative force.

An authority—Webster's dictionary—says: A comptroller is a public officer whose duty it is to examine and certify accounts. A comptroller in general corresponds to an auditor, but often has larger executive powers than those commonly given to an auditor. The terms are often, but not always, used synonymously.

That's what the dictionary says. Now listen to what Woodrow Wilson, at present president of the United States, once wrote about a comptroller: The comptroller, or that equivalent officer, the state auditor, is public accountant. It is his function . . . in a word, to regulate the assessment, collection, and disbursement of the public moneys.

That's what Woodrow Wilson wrote long before he became president of the United States and picked out fourteen points to press on the world.

**What City Manager Says**

In his written statement to the board of freeholders relative to the Glendale government and the proposed charter, City Manager Watson declared:

"There is an appropriation to cover the expense of performing the several city functions respectively.

An account is set up on the budget ledgers for each one of these respective functions and the appropriation credited thereto. The disbursements on account of these several functions are deducted once a month from the appropriations and a report is prepared monthly indicating the state of each appropriation account. In this way control of the disbursements is had.

We have in mind, however, that the charter should provide for a comptroller as stated before, whose duty it would be to see that all disbursements are in accordance with appropriations and that no disbursements are made except that the council has previously appropriated funds for that purpose. The authority of the comptroller should extend to and be applied to the point of purchase. To that end it should be provided that all orders that would obligate the city for the payment of any sum whatsoever should be subject to the

**WANT DISPLAY****TWO ORGANIZATIONS URGED TO FINANCE FLOAT FOR PASADENA'S PARADE**

It is probable that a meeting of representatives of the Greater Glendale Improvement club and the Glendale Chamber of Commerce will hold a conference shortly to consider the proposition of placing a float in the Tournament of Roses parade to represent this city, the tournament being held New Year's day at Pasadena. Last year Glendale's float won one of the prizes offered.

The board of trustees last year financed the float, but this year, owing to the condition of the funds in the city's publicity and promotion department, the trustees will be unable to give financial support, it is announced.

Quick action is necessary if Glendale is to have a representation in the tournament and, it is presumed, the improvement club and the chamber of commerce will at once take steps to see that a proper display is made in an effort to further advertise Glendale to the many thousands of visitors at the tournament.

**BERCE'S BOOKS IN LIBRARY**

BERKELEY, Cal.—Book lovers who frequent the University of California library at Berkeley will be overjoyed to hear that the most cherished of Ambrose Bierce's books, that eccentric genius who as yet is but little known to the general public, but who has been proclaimed by European critics worthy to rank with Poe, has been presented to the already nationally famous collection of the state university.

PLAN TO ASSIST FARMERS  
TOPEKA, Kan.—California land colonies, established a few years ago under the state colonization board, are to be made basis for institution of a similar plan of aiding farmers in Kansas.

approval of the comptroller before the same are issued."

**Discussion of Comptroller**

At the last meeting of the board of freeholders, a comptroller and his duties were discussed, with the result that it was not decided whether he shall be elected by the people or appointed by the city council. In fact, it was not decided whether a comptroller should be added to the city's administrative force under the charter. The matter was left wholly in the hands of the charter drafting committee, which will report back to the board.

Mr. McGee, one of the freeholders, declared that a comptroller should be the watch-dog of the city treasury. His definition "took."

Yet back to the original questions: What is a comptroller? Should the city of Glendale have one? What powers shall be given him? The board of freeholders wants to know.

**GROWING FAST****LARGE LIST OF MEMBERS IN P.-T. A. AND MUCH GOOD WORK IS DONE**

One of the liveliest, most progressive organizations in Glendale is the P.-T. A. federation.

Already with only two-thirds of the school year ahead of them, they have reached a membership of 1,826. This organization is a tower of strength to Glendale's schools, and a civic asset to Glendale; for what more important enterprise or business has Glendale or any other city than the rearing and educating of its future citizens?

All hail, then, to Glendale's P.-T. A. Of course, most of them are mothers—for father usually shifts the burden of the children's training onto mother's shoulders, feeling that his duty is done when he earns the money for the food they eat, the clothes they wear and the roof that covers them, and forgetting that mother labors just as hard preparing the food, making, mending and washing the clothes and keeping the house in homelike condition.

Not all fathers, however, take the mistaken view that the entire problem of the child's mental and spiritual development belongs in mother's realm alone. Many of them understand that father's viewpoint, father's sympathetic understanding and father's firm hand are also needed, at times, to guide a young son and even, also, a young daughter, and in some of the branches of Glendale P.-T. A. a number of fathers are members, and occasional evening meetings are held for their benefit.

**EFFORTS PLEASE****CHIEF OF POLICE LAMPERT'S NEW SCHEDULE FOR FORCE GIVEN COMPLIMENTS**

The efforts of Chief of Police J. P. Lampert to afford Glendale full police protection, as far as the department's budget will permit, seems to be meeting with public approval. Chief Lampert, beginning December 1, inaugurated a new working schedule that affords the city twenty-four hours of protection. In the past, officers were not on duty all of the time, being subject to call. Now, however, there is a three-shift force.

The business men of the city seem to appreciate the new plan and, too, it appeals to the officers themselves.

**DIVIDE ESTATE BY CHANCE**

WINAMA, Ind.—Three business men asked to apportion a \$500,000 estate, divided it into three parts, placed a description of the property in three separate envelopes and then put them in a hat. Each of the three heirs was satisfied with what he drew.

**GLENDALE ELKS****REMAINDER OF MONTH WILL BE BUSY TIME FOR LODGE; TO HOLD INSTALLATION**

A busy time faces the Glendale lodge of Elks for the remainder of the month of December, just as the first of the month was an active period.

The memorial services were held at the club last Sunday. On the following night, balloting for candidates took place and a number of new "Bills" were received.

On Saturday, December 11, the Elks will hold their charity ball, which the general public is privileged to attend. This is always a big event for the Elks and their friends.

On Monday, December 13, an initiation will take place, the ceremonies being conducted under the auspices of the officers from the Pasadena lodge of Elks.

On Monday night, December 20, the past exalted rulers will hold sway and on Friday night, December 31, the New Year's eve dance will be held.

**NAME OFFICERS****COUNTY FARM BUREAU PICKS ROBERT H. NEELY FOR YEAR'S PRESIDENT**

According to an announcement by Farm Advisor Hodgson reaching The Evening News, Robert H. Neely, secretary of the La Puente Valley Walnut Growers' association, has been elected president of the Los Angeles county farm bureau. Mr. Neely was vice-president of the organization during the past year.

It is also announced that Harvey S. Bissell of La Crescenta was elected first vice-president; Dr. J. G. Biller, Spadra citrus grower, and director of the Pomona farm bureau center, was elected second vice-president, while Secretary W. S. Rosecrans of Gardena, and Treasurer Ralph McNeese of Whittier were re-elected.

At the annual session it was voted to increase the annual dues from \$2 to \$2.50. Demonstrations of pruning were given and prize dairy herds on the Baldwin ranch at Arcadia were visited. Associate membership in the bureau was granted to women. J. B. Valle of San Dimas, retiring president; Volney H. Craig of San Fernando and Dr. George P. Clements of the Los Angeles chamber of commerce were elected directors at large.

**GOVERNOR COX ACCEPTS**

NEW YORK—Governor Cox of Ohio accepted a life membership in the National Democratic club. "I feel highly complimented to be made a life member of the club," said Governor Cox in his letter of acceptance. "It has had a useful career."

**INVESTIGATING****BOARD OF FREEHOLDERS TO HEAR REPORT CONCERNING CONTROL OF SCHOOLS**

How far the proposed city charter can control the Glendale school district is a matter now under investigation by the board of freeholders, engaged in framing the new city charter for Glendale.

At the order of the board of freeholders, Dr. Jessie A. Russell, one of the freeholders, held a conference with Mark Keppel, county superintendent of schools. He, in turn, referred Dr. Russell to the county legal department and she is now in communication with that organization to learn just how far the charter can control the local school district.

According to present indications, Dr. Russell will have a written report to submit to the freeholders from the legal department at the next meeting of the board.

**MARK IS SET****DYNAMO CLASS IS STRIVING TO BRING MEMBERSHIP TO 40 BY MARCH**

The Dynamo class of the Glendale Presbyterian church has set a mark to shoot at. The class, which is one of the liveliest organizations in the church, has decided that it must have at least forty members by March 1, 1921.

At the present time the enrollment is thirty-two. That means the class wants at least eight more members by March 1. The members are now engaged in a hunt for new members and, judging by the enthusiasm displayed, the goal will be reached and passed, probably before the date set.

**LOCAL TEACHERS****INSTRUCTORS IN GLENDALE'S PUBLIC SCHOOLS PLAN TO ATTEND INSTITUTE**

Teachers in the public schools of Glendale are making plans to attend the Los Angeles county teachers' institute, to be held during the week of December 20 in Los Angeles.

Speakers of national reputation will be present, secured by Mark Keppel, county superintendent of schools, many being leading educators and presidents of prominent institutions of higher learning.

The county teachers' institute will be held in the Bible institute in Los Angeles every day throughout the week. The Los Angeles city teachers' institute will be held at the same time and the same speakers will address both institutes.

**LOCAL DELEGATE****CHARLES B. GUTHRIE GOES TO LOS ANGELES; ATTENDS REALTY CONVENTION**

Charles B. Guthrie, as a delegate from the Glendale realty board, is attending the California Real Estate association convention, now being held in Los Angeles at the Alexandria hotel. He was appointed at a recent meeting of the local organization to attend the state convention.

The California association scheduled meetings for December 9, 10 and 11 and a varied program is being presented, including talks on the "rent hog," the lot profiteer and the speculator; also on other matters of interest to realty men.

The Glendale realty board has established an information bureau in the First National bank of this city, where varied questions put by tourists and others concerning Glendale are answered by Miss Halvorsen, who is in charge of the bureau.

It is stated, however, that the local board has not the funds to further finance the bureau and C. L. Chandler is at the head of a committee to devise ways and means to get financial support for the information department, which is of general benefit to the whole city.

**SEEKS MEMBERS****CHAMBER OF COMMERCE OF GLENDALE WILL INVITE PUBLIC TO MEETING**

Directors of the Glendale Chamber of Commerce are making plans to hold a meeting during the last of the month, to which the general public will be invited, for the purpose of making plans for a membership drive.

As told recently in The Evening News, W. B. Courtney, director of campaigns for the American City bureau, was in Glendale and held a conference with the directors of the local chamber of commerce on the proposed membership drive.

Since then, the directors have been investigating the situation and will, it is stated, hold a public meeting the last of the month to discuss the campaign. It is the desire of the local organization to fix a reasonable membership fee, yet one large enough to cover the cost of a salaried secretary and other operating expenses.

The business men of the city not already in the organization will be specially urged to attend the proposed meeting and participate in the discussion of the membership drive.

The drive will not be held until after the holiday season.

Experiments made by a London scientist prove that bats are directed in their flight by a special sense of hearing and by sound waves.

## GIVES PROGRAM

MAGNOLIA SCHOOL P.-T. A. IN SESSION; ADDRESS GIVEN

BY R. D. WHITE

An evening meeting was held recently by the Magnolia Parent-Teachers' association at the school. The regular order of business was dispensed with and a pleasing program was presented.

The feature of the evening was a fine address made by R. D. White, superintendent of schools. His talk was full of facts of interest to the parents and others present.

Following the address by Superintendent White, remarks were made by Mrs. John Robert White, Mrs. A. H. Brown and Mr. Griffin. Each had something of interest to say.

Then came a piano solo by Miss Audrey Haynes. It was thoroughly enjoyed.

The evening closed with a social session and with refreshments of coffee and cake.

The Magnolia P.-T. A. is one of the most active of the Glendale associations and the recent evening meeting was a complete success in every detail.

## FOR CONGRESS

B. F. TUCKER PUT FORWARD AS CONFERENCE CANDIDATE TO MAKE CONGRESS RACE

The many friends of B. F. Tucker, connected with the City National bank of Long Beach, are urging that he be chosen at the republican conference at Pasadena, Dec. 17, as the candidate for congress in the ninth district to fill the vacancy caused by the death of Congressman-elect Van de Water. Mr. Tucker is one of Long Beach's most substantial citizens.

Club women of Pasadena are taking an interest in securing a woman candidate to run for congress. It is said that the movement has gone so far as a suggestion for a conference of all the women's clubs in the congressional district, to make the nomination of a woman candidate.

Several Pasadena women have been suggested as possible candidates. They include Mrs. Robert J. Burdette, Mrs. Leo G. MacLaughlin, Mrs. W. D. Crocker, Mrs. Charles H. Ashcroft, Mrs. Louis H. Mitchell and Mrs. Clara Bryant Heywood.

A boy in Newcastle, Ind., found \$1300 worth of gold in a pot while digging a basement under a house. A daughter of the former owner of the house, and the farmer who now owns the place, both laid claim to the gold, but the judge ruled that "finders are keepers."

## COMING DOWN

SILK STOCKINGS ARE NOT AS EXPENSIVE; PRICES AT LOWEST NOW, CLAIMED

Women's silk stockings that were priced by manufacturers at \$27 a dozen last spring have dropped to \$15. During the same period women's mercerized stockings have been reduced from \$7.50 to \$3.50 a dozen at the mills, and cheap cotton stockings have declined from \$1.85 to \$1.15 a dozen.

This was the news given out in Chicago at the meeting of the National Association of Underwear Manufacturers in session there.

"Prices on these goods have touched bottom and can go no lower," said R. L. Reifsnelder, "as raw cotton and wool are selling below cost of production."

The manufacturers expect to accomplish a great deal by weeding out the inefficient help employed during the war period and getting a larger production per unit.

## AMERICA FIRST

GIRL TELLS WHAT SHE WILL DO WHEN SHE GETS BIG SUM LEFT TO HER

SYRACUSE, N. Y.—When Miss Rosamond Gifford, heiress to the \$1,400,000 left by her father, William H. Gifford, former district attorney, comes into the possession of the fortune, to which Justice Edgar Emmerson in a decision just filed holds she is legally entitled, she will not: travel in foreign countries, buy a lot of Paris gowns, adorn herself with jewelry, give away all her money, or get married.

But she will: See America first, make improvements in her property, hear the best music, try to make her friends happy, and do as much good as she can with her fortune. That is what the young woman told a reporter.

"Do you know that since dad died I have had about 1500 letters, practically all appealing for money?"

## USED AS SUGAR

CORN SYRUP IS SUBSTITUTE AND EXPORTS MAKE NEW RECORD FOR YEAR

WASHINGTON—Corn syrup, distinctly an American product, bounded forward as a sugar substitute during the sugar famine of the last year or two and broke all export records in 1919 with 255,617,709 pounds sent out. These figures, according to the bureau of foreign and domestic commerce, showed an increase of 346 per cent in size and 338 per cent in value over 1918 exports.

The output of this by-product next year probably will exceed all previous years, owing to the record corn crop, the statement said, and corn syrup will become a factor in the country's export trade.

Exports of these corn products during the first nine months of 1920 aggregated 134,121,305 pounds with a total value of \$8,824,998.

## NOT DEAD YET

WOMAN IS NOTIFIED THAT HUSBAND IS IN MORGUE; HE MAKES DENIAL

CHICAGO—Mrs. Alma Adamovitch of 7619 Baltimore avenue, was notified by the Central undertaking rooms that the body of her husband lay in their morgue. After some hysterical maneuvering Adamovitch was located by phone at work. Accompanied by his wife and with murderous mein, he set out for the morgue.

"Who says I'm dead? Who says it?" he demanded of the undertakers. "Of course you are not dead, Alex," soothed his excited helpmate. "But there's your corpse on that slab—read the tag on the toe," said the undertaker grimly. "We identified you from a badge."

Whereupon Alexander explained that the badge found on the dead man had been stolen from him four years ago when he worked for the Standard Oil company.

## DAIRY COURSES

COUNTY FARM BUREAU WILL GIVE INSTRUCTION; DATES ARE NOW ANNOUNCED

It is announced that plans are under way for two short dairy courses to be held in Los Angeles county early in January. One will be held at Downey on January 3, 4 and 5 and the second at Van Nuys, January 4, 5 and 6. The courses are being arranged by the agricultural extension service in co-operation with the California Dairy Council.

Prominent dairymen and experts from the State University will be included on the program and dairy topics will cover a wide range. Demonstrations of various kinds will be conducted. The complete program will be announced shortly by Farm Advisor Hodgson.

OAKLAND—A gallon of lubricating oil a week is the amount necessary to keep the city hall clock in this city in working condition.

## JUVENILE LAWS

PRACTICALLY EVERY STATE  
IN UNION IS GUARDING  
CHILDREN BY COURTS

WASHINGTON—Twenty-one years ago the relation of the father to his child partook of the nature of a property right. The courts could enforce this right, but on the other hand they were often powerless to enforce the duty of the father to his child.

Since 1899 every state in the union has passed juvenile court laws except Connecticut, Maine and Wyoming, and these three states have passed laws dealing with some of the problems usually included in the juvenile court law itself. The extensiveness of this legislation is the best evidence of the previous unsatisfactory viewpoint of the law.

How far the states have gone in modernizing their attitude toward the delinquent and the neglected child is shown by the bulletin made public by the children's bureau of the United States department of labor, entitled "A Summary of Juvenile Legislation in the United States."

**Complicated Problems**  
Juvenile court legislation deals with a complicated group of problems, that of the child accused of breaking the law; the adult offending against the child; the neglected and degraded parent; the incompetent and unfaithful guardian, and the family that is simply poor.

Under the old law the delinquent child was dealt with in the same manner, with certain restrictions of age, as the adult offender. He was tried before a criminal court with all the formality and notoriety of a jury sworn testimony and confronting witnesses.

If found "guilty" the child suffered the penalty. If "not guilty" he went free. In no case did the law extend to any constructive help.

Of recent years, however, the law has recognized the right of the child to a reasonable minimum of care, of decency and of well-being.

**Use Varied Methods**  
Consideration has been given to the natural impulse of youth and to the adverse conditions under which the child may have been brought up.

Because of the differences in the structure of their judicial systems, the states have had to meet the problems by various methods of legislative attack. In every state, however, the attempt has been made through legislation to solve the difficult problems involving the unfavorable conditions—domestic, social and economic—under which children are living and developing today.

The present summary embodies an analysis of the legislation in force at the beginning of 1919, with an appendix giving additional legislation and amendments enacted during the year 1919.

**MILLIONAIRES GO BAREFOOTED**  
BERNE—Barefooted millionaires are reported prevalent in the Crimea, according to a letter of a Swiss woman quoting prices in depreciated Russian rubles. The income of peasants is great because the land there is productive and a pound of wheat sells, roughly, at 1000 rubles. On the expense side of the ledger, shoes cost 50,000 rubles, a suit of clothes 200,000. Farm laborers get 10,000 rubles a day.

**JUNK THE KAISER'S STATUE**  
LONDON—The bronze from the statue of the former kaiser at Metz, which was taken down immediately after the armistice, has been sold by the town council of Metz for 75,000 francs. The money will be devoted to the erection of two statues—one to the French "poilu" and the other to the French patriot, Paul Deroulede.

## DATE IS FIXED

FOURTH INSTALLMENT UPON  
INCOME TAXES MUST BE  
PAID DECEMBER 15

The Evening News is in receipt of information to the effect that the final date for the payment of the fourth installment of income and excess profit taxes is December 15. That is the "deadline" date. After that time an additional penalty will be added.

In some quarters in Glendale it seems to be the belief that there will be ten days of grace. This is not correct. Internal Revenue Collector Carter declares that at midnight, December 15, the fourth installment must be paid or the penalty will be added.

## VINE PRUNING

DEMONSTRATION IS PLANNED  
UNDER DIRECTION OF  
BUREAU OFFICIALS

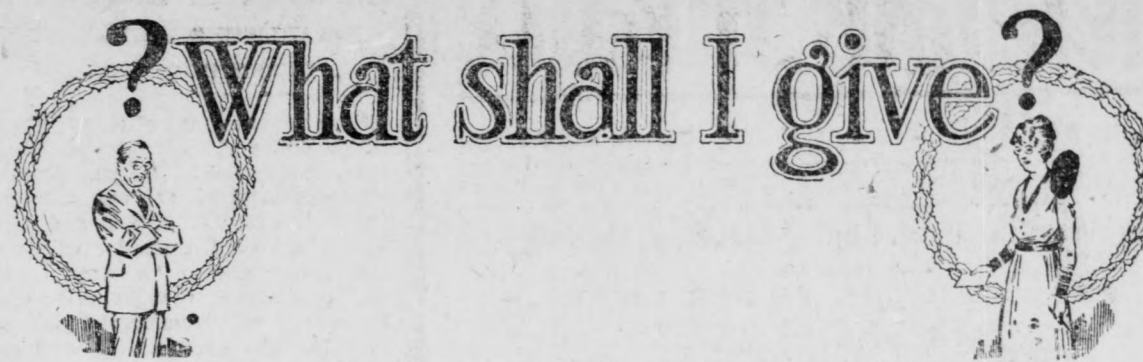

Under the auspices of the Los Angeles county farm bureau, a field demonstration on vine pruning will be held this month by Professor F. T. Bioletti, head of the viticulture department, College of Agriculture, one of the most noted authorities on grapes in the United States. An inspection of grape growing prospects in San Fernando and Antelope valleys also will be made.

The demonstrations will be open to the public and will be held Monday, December 13, the first at 10 a. m. at the First Brothers' vineyard at La Canada, and the second at 2:15 p. m. at S. D. Percey's vineyard at Sunland.

**PLAGUE SCARE IS FAKE**  
MEXICO CITY—Alarming reports are being received concerning the spread of bubonic plague in San Luis Potosi. It is said that more than twenty cases have been found. These reports, however, are heard with distrust in some quarters. Tampico, before the yellow fever scare, was busy with a bubonic plague scare. It was a splendid source of "graft," and it is suspected that some persons in San Luis Potosi wish to adopt the profitable system established in Tampico, where every person leaving the city was compelled to pay a fee, either to avoid taking an injection of the bubonic plague serum or to have the serum injected. There was no way of escaping paying the fee, although the traveler had his choice of taking or not taking the serum.

**AGED INDIAN NEVER IN BED**  
MINNEAPOLIS—John Smith, an aged Chippewa Indian, arrived in Minneapolis recently with his adopted son, Tom Smith, to attend the state fair. John, who is 133 years old, has become blind since his last visit to Minneapolis a year ago. His health is still good, however, he maintains. He is said to be the oldest living Indian. "I don't see any more, but I still like to travel," the old Indian said. With him he brought his blanket, upon which he sleeps, never having slept in a bed.

An Ottawa, Ill., banker was locked in his vault by a bandit. Failing to open the time lock, bank officials asked Joliet penitentiary to lend them an expert safe-cracker, but the warden was unable to find a graduate blower who felt capable of handling a modern safe.

## COMMERCIALISM

FINE AMERICAN TRADITION IS  
ESTABLISHED FIRMLY BY  
SUCCESSFUL MEN

The announcement of a sixty-three million dollar gift by John D. Rockefeller to the Laura Spelman Rockefeller memorial for the improvement of the condition of women and children is a recent reminder of what is becoming a fine American tradition; a tradition that helps answer the charge of "commercialism" so often brought against this country, and a tradition that places a strict responsibility upon the men and women of unusual wealth in the United States.

For more than a decade now the gifts of Americans to philanthropic purposes, at home and abroad, have run into several hundred million dollars annually. No record of the two or three decades just past is more inspiring and heartening than the regular accounts of beneficent contributions from men and women who have been blessed with large amounts of the world's goods and who have felt the best way to serve the world and return gratitude for prosperity was to help heal the sick, lift the fallen, educate the ignorant, relieve the pangs and despair of poverty and aid the country and the world to better living.

### Activity in Big Things

Frequently, it has been said by those outside America, and by a few within the country, that commercialism—the spirit of trade, "the almighty dollar," the desire for material things—was at once the characteristic and the bane of American life. There is truth in the statement that consideration for and development in material things has been a primary motive in the activity of the people of this country, although there has been idealism, attention to art and the so-called higher things of life.

But by necessity and in accordance with all the conditions in the case the people of America have been concerned largely with building homes, cities, factories, railroads, bridges, clearing forests, irrigating the soil and getting possession of the raw material in which the country abounded. No apology for this kind of activity is necessary. It has been the logical and the sensible thing to do.

But this activity has been for the ultimate aim of making America the most livable of the countries of the earth, and many of those who have been most successful in connection with the material development of the land have contributed large portions of their gain to the higher service of mankind.

### Should Not Be Forgotten

When therefore one comes to speak of America's great men and women—of the poets, painters, musicians, scientists, statesmen and professional men—who have not given themselves to "mammon" but to humanity's service, the list of those who have been big in philanthropy should not be forgotten.

These munificent givers have also done something else: They have set an example that no person of great wealth in this country can well afford to ignore in the years to come. The responsibilities of immense possessions are co-equal with benefits and blessings. It is not now enough for the man who has given his efforts to the making of money to declare that by furnishing employment to many and by furthering the material wellbeing of the country his full duties have been discharged. The call to still higher service has been issued.

## GUIDING CUPID

MINISTER IS TAKING GREAT  
INTEREST IN ARRANGING  
SUITABLE MARRIAGES

LONDON—The clergy are taking the little god Cupid in hand and endeavoring to guide his darts the way they should go.

Most prominent in this field of activity is the Rev. James Dixon, vicar of Willesden, who is a great matchmaker. He organizes dances and weekly entertainments in the vicarage garden during the summer and holds parties in the house during the winter.

"The boys and girls meet here," he said. "They become attached and ultimately fall in love, and then I tie the knot for them. You see, the church is quite near by and handy."

When Dixon first started these entertainments he was strongly criticized, but he pursued the even tenor of his match-making propensities and now the young folk at Willesden would rather be "round at the vicarage" than any place else.

"I have proved that it is good for everybody," said Dixon, in vindication. "When the young couples are married they are never likely to forget the vicarage garden where they did their early courting, and this helps to keep them in touch with the church."

"I always tell the lads and lassies that if they come to my dances they will catch the measles," he added with a chuckle. "Love, you know, is very much like the measles. The more you try to stay its course the more virulent it becomes. I find that most of the 'grasshoppers' as they are called, fall victims sooner or later."

## FULL EQUALITY

HONOR SECRETARY OF WORLD  
W. C. T. U. MAKING TOUR  
OF COAST STATES

SEATTLE, Wash.—"Suffrage offered a wide-open door to women in England and now they want it open wider." This is the explanation given by Miss Agnes E. Slack of Derbyshire, England, honorary secretary of the World's W. C. T. U., for the increasing number of women smokers in her country. Miss Slack arrived in Seattle from Vancouver, B. C.

Miss Slack firmly believes in woman suffrage and doesn't want to be misunderstood in her reason for the spread of cigaret smoking among the women. She said that some kind of a disadvantage usually follows all good movements.

"I believe the women feel that they want to be on full equality with the men and that one of their ways in exercising their right is by smoking, which is common in the hotel lobbies in London," said Miss Slack. "Most of the women's clubs there have a smoking room. I belong to a woman's club in London where smoking is not allowed on the premises and it is the only one I know of that has such a ruling."

### Fifth Visit to United States

Miss Slack came to the United States last September to speak at the International Congress Against Alcoholism held in Washington, D. C. At an evening mass meeting she shared honors on the program with William Jennings Bryan. This is her fifth visit to the United States, but the first time she has ever been in Seattle or the west.

"The success of prohibition in the United States is the hope of Great Britain today," declared Miss Slack. "The United States is forcing the temperance question in all countries where liquor flows. It is up to the United States to help these countries. The money in this country that once went into drink now goes into the right channels."

Miss Slack explained that liquor conditions in England are not quite back to the pre-war days, but that Great Britain is spending \$5,000,000 a day on drink. That liquor can only be purchased during certain hours, the time varying in the different communities, is a continuance of the war basis, according to Miss Slack.

"There has never been a time in England when prohibition was discussed so much as at present," said Miss Slack. "When our influential men make trips to the United States they always return with reports that this country is going ahead because of prohibition. I believe that if all the men in England would visit this country, we'd have prohibition in Great Britain without delay." She thinks England will get prohibition in ten years' time.

### Public Opinion Growing

Miss Slack thinks the hindrance to prohibition in England is due to the absence of local option laws. If communities could vote on the question themselves she believes it wouldn't be long before England would be a dry country.

"Public opinion is growing fast for local option," said Miss Slack. "We want prohibition for the efficiency of the people because drink cripples a nation's resources, it cuts up a nation's supplies and it fills the jails and asylums."

The headquarters of the World's W. C. T. U. is in London. Miss Slack is a member of the permanent committee of the International Temperance congress.

### MADRID SKYSCRAPER FLATS

MADRID—A gigantic effort to settle the housing problem of the Spanish capital by the influx of thousands of country folk to the city is in progress in the northern section adjacent to the suburb of Cuatro Caminos. A private concern has acquired an enormous tract of land and has begun building what for Madrid are skyscrapers of ten stories. Each of these buildings is to contain 400 flats and 40 stores. The new model suburb is to be in all respects modern. Engineers are now engaged in laying out a boulevard running through its center over half a mile long and 120 feet in width, with two carriage ways and a central promenade lined with trees.

Hungary signed the treaty of peace with the allies with the draping of black flags and general mourning throughout the land.

## HONOR WOMAN

ONLY ONE HAVING RIGHT TO  
SIT IN POSTAL CONGRESS  
GATHERING IN SPAIN

TAMPICO, Mex.—Americans in Mexico are proud of the fact that Miss Elizabeth Lee Woods of Tampico has the distinction of being the only woman permitted to sit in the Universal Postal congress, which has been holding its seventh session at Madrid, Spain.

Miss Woods, although a resident of Mexico, was appointed a delegate without vote, in charge of Spanish-American affairs, by the United States government. She is the only delegate to the congress and in a letter just received here from her she tells in an interesting way of the difficulties she encountered in obtaining permission to sit in the congress. In the final granting of this permission all traditions of the honorable body were upset.

Miss Woods came to the attention of the United States government at the time the American troops were sent to Vera Cruz a few years ago. Enormous quantities of mail poured into the Vera Cruz postoffice. No one seemed to be capable of handling the situation. Miss Woods was in Vera Cruz at the time. She volunteered her services which were accepted. In a remarkably short time she had the mail sorted and moving to its proper destination.

The urban population of the United States is about 4,000,000 more than the rural, while in 1910 the rural was about 7,000,000 more than the urban.

## Candy for all the Kids

There are so many more children in Glendale this Christmas than ever before that Santa Claus has enlisted our aid to see that they all have plenty of candy.

"I want every kid in Glendale to have all the candy he wants at Christmas time," he wrote us, "and since it is impossible for me to carry such with me I want you to have an extra large lot on hand as usual."

That's the reason we took particular care in ordering our Christmas stock of candies, why we were so careful to get the best and the freshest and plenty of it.

If you are going to need large quantities of candies at Christmas better order it now

Our Fine Boxed Candies are ideal

### BETTER ROADS

MEXICAN RAILROADS TO BE  
IMPROVED; SERVICE NOW  
IS UNUSUALLY POOR

TAMPICO, Mex.—To hundreds of  
Americans in this thoroughly Ameri-  
cized town, who have to make fre-  
quent trips to and from the states,  
the best news in recent weeks is the  
announcement that a New York con-  
cern has contracted for the rehabili-  
tation of the national railways, for  
though there is room for everybody  
and everything in Mexico, there is  
more room for improvement of the  
railways than nearly anything else.

Back in the days of Porfirio the  
standard-setter, the Mexican rail-  
ways were said to be among the best  
in the world, and pleasure trips could  
be taken in this country. Eleven  
years of turmoil, however, utterly  
deleted that adjective, and the lines  
also are as complete an argument  
against government control as could  
be found. The railways of the United  
States couldn't do a smarter thing  
than to invite every highbinder  
state legislator and every soapbox  
orator who refers to them as soulless  
corporations to take a free ten-day  
sightseeing trip through Mexico. The  
orators certainly would return ar-  
dent enthusiasts about American  
railways, and the legislatures doubt-  
less would be flooded with bills pro-  
viding for state monuments to all  
American railway presidents.

#### Difference Is Noticed

As soon as one crosses the border  
he notices the difference. In the sta-  
tions he is beset by cargadores, eager  
to carry his baggage and often al-  
most as helpful as they are bother-  
some, but if he instructs one to take  
his luggage to a check stand there is  
nothing doing. He cannot check it.  
There is no check stand. There is  
no good place to eat, nor to sit, and  
he may have to stand in line half an  
hour to buy his ticket.

In the coaches there are smoking  
compartments, but men smoke every-  
where. Recently an American woman  
and a baby, on the way here, travel-  
ed in the smoking compartment  
from choice, because the air was not  
so thick with smoke there as in the  
first-class coach. There were seats  
for only eight persons in the smoking  
compartment, and she and her baby  
and a relative took up four of them,  
which left only four seats for smok-  
ers, while in the first-class chair car  
perhaps fifty men were smoking. The  
brakeman invariably was puffing a  
pipe or cigar when he passed through  
the car.

The sleeping cars generally are so  
crowded that one must make his res-  
ervations (accompanied by a bribe)  
several days in advance. And when  
you are so lucky as to secure a reser-  
vation it is not unwise to arm your-

### PROVE COSTLY

COMPLEXIONS AND RUBY LIPS  
OF AMERICAN WOMEN COME  
RATHER EXPENSIVE

Peachy complexions and ruby lips  
and fragrant personality cost the  
women of this country \$750,000,000  
last year, according to luxury tax re-  
turn figures. This enormous sum  
was expended for rouge, face powder,  
cosmetics and perfumery.

The cost of cosmetics and per-  
fumery was more than twice that of  
women's furs. The amount spent on  
furs was approximately \$300,000,-  
000.

The ladies did their part in spend-  
ing money on luxuries, but the ex-  
penditures were not confined to  
them. Eight hundred million dol-  
lars went up in cigaret smoke, while  
\$510,000,000 were burned up in the  
form of cigars.

Jewelry cost \$500,000,000, only 2  
per cent of luxury expenditures. The  
grand total for 1919, when added  
up amounts to \$22,700,000,000  
handed out for other things than nec-  
essities.

Here are some of the high spots in  
the nation's luxury bill: Soft drinks,  
\$350,000,000; toilet soap, \$400,000,-  
000; chewing tobacco and snuff,  
\$800,000,000; ice cream, \$250,000,-  
000; chewing gum, \$50,000,000;  
cake and confections, \$350,000,000;  
"luxurious services," \$3,000,000;  
luxurious food, \$5,000,000,000; joy-  
riding, pleasure resort and races,  
\$8,000,000,000.

Oregon high schools paid \$1500  
for sheepskin covers of diplomas of  
graduates.

self with a small squirt gun contain-  
ing insect powder.

#### Express in Freight Cars

Things shipped by express travel  
in freight cars and are on the road  
two weeks or more between towns  
150 miles apart. And freight is com-  
paratively as much slower as freight  
is slower in the United States.

This is no criticism of the present  
regime in Mexico. Doubtless such  
conditions are inevitable after so  
many years of war, and the present  
government is showing commendable  
promptness in contracting for the re-  
habilitation of the roads. Unques-  
tionably that promptness will pay,  
for with good travel conditions Mex-  
ico has more to tempt the American  
tourist, investor or lover of Ameri-  
can history than all of Europe. But  
right now the American colony here  
is celebrating the announcement of  
the pending improvements for pure-  
ly selfish reasons. They will put  
Tampico a full day closer to the United  
States, and the prospect of being  
able to make a one-day trip in one  
day instead of two is proving worth  
a treat in many a tantina.

### FORGOT HIS HOME ADDRESS

KANSAS CITY—William Fasta-  
bend, newly arrived from Denver,  
found lodgings, and went out to buy  
groceries, forgetting to write down  
his home address. When he tried  
to go back he could not find the way  
and could not remember the street  
and number. After walking about  
ten miles, he made for the police sta-  
tion and explained his trouble. Short-  
ly after, his wife called up to know  
if they had seen anything of Wil-  
liam. A policeman escorted him to  
his new home.

To eliminate gambling and opium  
smoking among Chinese in this coun-  
try, the Chinese National Welfare  
Society in America is establishing in-  
dustrial schools and persuading the  
Chinese to attend American schools  
where they may occupy their time  
and their thought with trades and  
industries.

Tarrant county, Texas, has erected  
a large apartment house at a cost of  
\$16,000. Apartments in this build-  
ing will be rented to teachers at a  
nominal rental of \$5 a month to sup-  
plement their meager pay.

Transatlantic freight rates are  
falling as a result of a rate war over  
the lessening quantities of export-  
able goods.

Mexico is beginning to divide frac-  
tionally the many large ranches of  
Sonora and is planning to sell the  
subdivisions to small farmers.

Many of the fruits and vegetables  
now eaten were, almost unknown to  
our forefathers. Not until Henry  
VIII's time were raspberries, straw-  
berries or cherries grown in England.

## MAKES DEFENSE

DR. BERNHARD DERNBURG HAS  
PLEA FOR GERMANY AND  
NATION'S WAR ACTS

BERLIN—Dr. Bernhard Dernburg has written a letter to Foreign Minister Puerrydon of Argentina, delegate to the league of nations assembly, defending Germany's war acts. The letter has been made public as part of Germany's fight for admission to the league of nations.

Dr. Dernburg is an experienced German propagandist. He formerly was German colonist minister and was sent to America by the Kaiser soon after the outbreak of the war to act as publicity agent. He and Count von Bernstorff frequently clashed. After the Lusitania was sunk, Dernburg issued a statement defending the deed. He was very unpopular thereafter. His activities were considered at variance with America's neutrality and he had to return home.

### Has Nothing to Regret

Dernburg tells Argentina that Germany is "willing to prove that the measures and means used by Germany during this war were, neither in proportion nor kind, worse nor more criminal than those used by our adversaries," and asserted that "we neither seek excuse nor ask forgiveness from others or ourselves."

Dernburg said the German people were not hurt so much by the economic and financial stipulations of the treaty as by the spirit with which they were branded with the stigma of moral unworthiness. "destroying at the outset the spirit and good will without which the league cannot survive." He demanded that the league examine the treaty's condemnation of Germany "in a spirit of justice."

"Few will consider the present league structure a fitting instrument to attain fulfillment of its sublime task to secure peace on earth through co-operation of all men," Dernburg wrote. "The majority of those at the conference do, however, believe in the possibility of its perfection."

Dernburg pointed out former Premier Clemenceau's accusations against Germany made under the treaty as "unbearable for the German people."

### Murder and War

"We do not deny," he said, "that during the progress of the massacre the world has just passed through, much frightfulness and oppression was practiced on our side. These are the accompaniments of every war. It will always be difficult to distinguish between murder under the sanctioned rules of international law and the misdeeds that lie beyond this line."

The writer said Germany does not excuse its war deeds but will gladly try its war guilty and that others "ought to do the same."

Dernburg declared if justice is to reign in the league a statement must be made that all belligerents are sinners, that all were members of the "old system," and that all aspired to the same political ideals and hence must bear the same burden.

## FLAYS FRATS

BREEDERS OF SNOBISHNESS,  
SAYS MINISTER SPEAKING  
AGAINST FRATERNITIES

COLUMBUS, Ohio—A tendency toward materialism and the development of selfishness constitute the two great perils of education, according to Rev. H. M. Le Sourd, Methodist Episcopal student pastor at Ohio State university.

"Materialism is either practical or psychological, or both, and with it comes the peril that God may drop out of our world of thought and experience," declared Rev. Mr. Le Sourd.

"Get all the science you can, and if you can see the working of the hand of God in and through it you need have no fear of materialism."

"Snobishness is developed in the university largely through the fraternity."

"Not that the fraternity spirit is one of snobishness, but it is developed by men of small mind and narrow vision who use this great system of social development for selfish purposes."

"With education is apt to come a desire to dominate other people, with prosperity and wealth as the goal. The method of reaching the goal often is of no moment, and they are apt to ignore the rights of others."

"This is the philosophy of a Napoleon or a Nero who stops at nothing to gain his end."

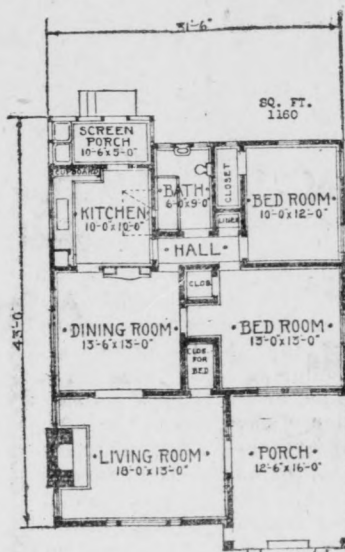

"It is only by service one becomes great, and his greatness is gauged by the greatness of his service."

### GIFT TO POPE IN MUSEUM

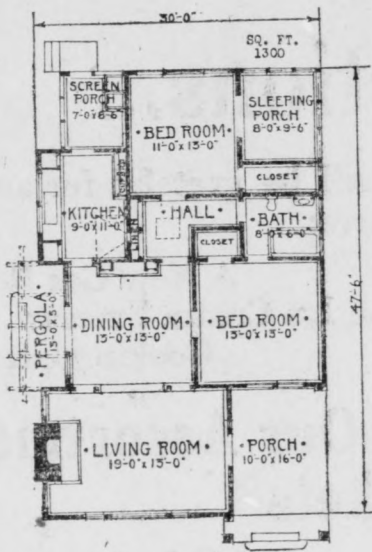

NEW YORK—The horn of an Indian rhinoceros, presented to Pope Gregory XIV in 1590 to protect him against poisoning by its putative medicinal properties, has been donated to the American museum of natural history in this city. The horn, given to the pope by the prior and brothers of the monastery of St. Mary of Guadalupe in Spain, was credited with sweating in the presence of poison, by way of warning, and if powdered and taken internally, with acting as an antidote. The tip is missing. It was cut off in 1591 and administered to the pope in his last illness.

Saloons in all the larger towns in Mexico are to be closed from noon Saturday until 9 o'clock Sunday morning.

## JAGUAR IS PET

ANIMAL FROM JUNGLES TAKEN  
TO MILWAUKEE AND KEPT  
IN THIS HOUSEHOLD

MILWAUKEE, Wis.—"Nice kitty, pretty kitty."

Quite naturally the words came as a striking looking feline with catlike tread descends the steps that lead from the living rooms of the white and shiny delicatessen store at 1207 Buffum street.

While the children unhesitatingly accept the pet as a cat, because she looks like one, the adult taking in the unusually large paws and the heavy legs that seem almost too large for the body, as well as the tawny skin with the striking black marks, backs away instinctively. For all that looks feline does not of necessity belong to the cat family and the names of "pussy" and "kitty" can never turn the wild jaguar into an example of domesticity.

"Pussy" is the property of Arthur Gossfeld and she lives on Buffum street of Milwaukee, than which there could be nothing more quiet and unsensational, but Pussy really belongs in the jungles of South America instead of being the pet of the neighborhood kiddies.

**Cigar Box Is Cradle**  
The jaguar was obtained by Mr. Gossfeld when he was a wireless operator on the merchant ship Santa Alana. When he returned home and handed his mother the pretty kitten it was a wee bit of a thing for which a cigar box made a comfortable cradle. But while to the stranger who may presume and become too familiar for pussy's taste she shows her primitive feelings; to her master she is all just kitten. Rubbing her nose against his neck she will purr and nip with coquettish playfulness.

When he's away, however, the mother keeps her within bounds and free from following her native instincts of wanderlust with a thin but effective chain.

### Will Eat Meat Only

Despite her catlike appearance, the strange pet, far removed from the jungle that she may be, has retained her "wild" instinct in the line of food. Scornfully she spurns the plate of milk as food for only the weaker tribe; in wrath she pushes aside the bread and potatoes that the more domestically inclined feline enjoys. She will eat but one thing—meat.

Maintaining such a pet is an extravagance in these days, but despite the fact that he has had lucrative offers for her, Mr. Gossfeld still clings to the wild pet that he has tamed by environment.

### EAT TWO WHITE MEN, BELIEF

BRISBANE, Australia—It is reported from New Guinea that two white men and ten native carriers are missing and are believed to have been eaten by the natives on the Fly river. The missing men were hunting birds of paradise in Dutch New Guinea. A searching party reported that on visiting a native village on the Fly river the villagers fled. Some booklets stained with blood, a photograph, some clothes and other evidences of the white men were found.

### MAY SHARE BIG ESTATE

BROCKTON, Mass.—Brockton and Holbrook persons may share in a \$4,000,000 estate left by Mrs. Mary Louisa Dinavarr, widow of the former Mexican consul to New York. She died July 8 and her will is offered for probate in New York. All are first cousins of Mrs. Dinavarr.

## LARGEST STAFF

LOS ANGELES COUNTY GIVEN  
BEST FORCE TO CARRY  
ON FARM TRAINING

According to an official report just received by Farm Advisor Hodgson, the county of Los Angeles is provided with the largest staff of agricultural extension service workers of any county in the United States.

The annual report of Farm Advisor Hodgson, just issued, shows the work carried on by the six assistants working out of that office. The report displays that 12,000 farms were visited and 561 meetings were held with an attendance of 27,000.

During the year thirty-two agricultural clubs were organized with a membership of 256. The report also detailed deciduous pruning and spraying work, citrus pruning and disease treatment, special work with walnut growers and attention to the livestock industry.

## MINE REPORT

CENSUS BUREAU GIVES FORTH  
STATEMENT RELATIVE TO  
WORK AND PRODUCTION

Miners employed in the Pennsylvania anthracite coal fields decreased from 169,000 in 1909 to 147,000 in 1919, but production last year was greater than in 1909 by 6,302,000 tons, said a statement by the census bureau reviewing operations for the past ten years.

The value of coal produced in the Pennsylvania field increased from \$145,881,000 in 1909 to \$364,243,000 last year, while wages advanced from \$92,169,000 in 1909 to \$210,202,000 in 1919.

Mine operators had an invested capital of \$246,713,000 ten years ago, but the properties were estimated to be worth \$432,391,000 in 1919. An analysis of the mine operators' expenses showed that while they paid taxes aggregating \$7,969,000 in 1909, the taxes in 1919 were \$11,762,000 and their rents and royalties grew during the period from \$3,356,000 to \$14,066,000.

Of the total value of coal produced in the Pennsylvania field in 1919, the Wyoming-Bernice Basin district reported an output of \$212,315,000, the Schuylkill, \$100,958,000, and the Lehigh, \$50,969,000. Culin Bank Washeries produced \$1,951,000.

The aggregate tonnage produced in 1919 was 78,566,868, the report showed. It was divided among the three fields: Wyoming-Bernice Basin, 43,902,000; Schuylkill, 23,334,000, and Lehigh, 11,330,000.

E. W. Stanford of Farmersville, Tex., dug a sweet potato weighing more than ten pounds.

## SCHOOL COST

SUPERVISOR DODGE OUTLINES  
REASONS FOR BIG JUMP IN  
EDUCATION TAXES

Jonathan S. Dodge, member of the board of supervisors from the district of which Glendale is a part, and chairman of the board, has issued a statement concerning the situation regarding the cost of education in the county. He says, in part:

"Those interested in school matters will say that it is not fair to compare the cost of education on the basis of population, but I think it would be of public interest to know that while the population of the county in 1910 was 504,131, and the cost of maintaining the schools \$4,290,356.39, ten years later in 1920 the population had not quite doubled, being 936,438, yet the cost of maintaining the schools in the county had increased to \$27,972,006 or 552 per cent. If we distribute this increase on the per capita of population basis, we will find that the increase per capita has been 25.9 per cent. The cost of maintaining our schools in 1910 was \$8.51 per capita, while in 1920 it is \$29.84.

Average Daily Attendance  
"A comparison of the cost of maintaining our schools, based upon the average daily attendance of pupils, presents interesting matter for consideration. The average daily attendance in the county during 1919 was 65,504 and the total of expenditures during that year was \$4,290,356.39, or an average cost for the education of each pupil of \$65.50. In 1920 the average daily attendance increased approximately 100 per cent, being 130,469, while the total school expenditures increased to \$27,972,006, or 552 per cent. The cost of education of each pupil for the year 1920 increased to \$214.40, an increase during the ten years of 227 per cent.

"These figures include the entire cost of maintaining the schools of the county, including interest on bonds and redemption of bonds that fell due during the years mentioned.

In County Schools  
"In the county of Los Angeles there are 153 elementary school districts, and twenty-six high school districts, all governed by trustees or members of boards of education, each district acting independent of the other and for itself. I do not know the exact number of teachers, but venture to say it will exceed 5000 this year.

"It will be impossible to figure the basis of increase of the rates of taxation for the reason that each district differs in the amount of its rate, but I would like to call attention to the fact that the rate for the Los Angeles city school district for 1913 was 84 cents on each \$100 of valuation, and that the rate for 1920 is \$1.67 on each \$100.

"The estimated expense of the schools of Los Angeles district for 1920, was also incorrectly stated at \$7,379,656.65, whereas the correct total, as shown by their budget, is \$10,822,931, exclusive of any charges for interest or retirement fund on bonds."

The hunger strike method has been tried just often enough to demonstrate the wisdom of taking a square meal when you can get it.

With the nation more than a million homes behind the demand, the rent profiteer is not doing any immediate worrying.

## MEXICO'S NEW RULE

Will inauguration of a new president in Mexico mark the beginning of a new era in the affairs of that much troubled land? There is a basis for the hope. Increasing order below the Rio Grande and a more conciliatory attitude on the part of Mexican statesmen have marked recent months.

The large number of Americans in Mexico City for the inauguration added unusual interest to the occasion. Their presence reflected how closely bound are the two nations in ultimate purposes and how desirable it is to each that the other flourish. There are some among us who look upon the former land of Diaz as a field for profitable exploitation; they do not represent the American people, who wish nothing but good for their neighbors.

Not in years has the Mexican situation appeared so hopeful. If General Obregon realizes the best possibilities of the next few months, he will win esteem for himself at home and abroad. His task is two-fold: To preserve order at home, and to meet his obligations abroad. In both undertakings he needs constructive support. That such good cheer marked his inauguration seems to promise that he will be able to command the help that he will need.

Wonder what, if anything, would happen to the price of bread if the farmers should give their wheat away?

## The Glendale Sanitarium and Hospital

### AN INSTITUTION

Where natural curative agents such as air, light, heat, water and electricity are used in the fight against disease. Where people are taught the principles of right living and are helped to sound physical health that makes the mere act of living a source of pleasure, health on which depends everything worth-while in life—ambition, success, work and accomplishment.

### The Price of Sound Health is Right Living

—in no other way can it be obtained. Money cannot buy it. Only pure air, rest, proper food, proper exercise, healthful surroundings and simple treatments can restore your health after you have lost it; prodding it into temporary activity does more harm than good. A service that is regenerative and reconstructive in its fundamental character is the kind of service we render.

### Why Not Reserve a Table for Our Special Sunday Dinner?

Our meals are served on the European plan and our dining room is open to the public. We serve a wholesome vegetarian meal and many appreciate the change from the heavier meat diet. We serve:

Breakfast . . . . . 8 to 9 a. m.  
Dinner . . . . . 1 to 2 p. m.  
Supper . . . . . 6 to 7 p. m.
